PRICE FIVE CENTS

To Boost Income Tax Exemptions

Budget Will Cut Tax Roll By One-Fifth

By Dick Jackson
 Edmonton Bulletin Ottawa Bureau
 OTTAWA, April 10 — In his new budget, Finance Minister Abbott will cut Canada's tax roll by one-fifth, The Bulletin was informed today.

The exemption levels for personal income tax are being raised to top 500,000 persons from the 2,500,000 tax roll.

The information is based on word which the finance department has passed along to at least three other big-spending Dominion government agencies which were inquiring about prospects for future increased expenditures.

Answer of the finance department to these inquiries as to the possibility of expanding certain government services involving increased expenditure next year was a flat "no."

WHETHER MR. ABBOTT would be reducing personal income tax rates remained a question he would answer on budget night, but it now appears certain that exemption levels are being raised.

Last year, when former Finance Minister Lacey raised the exemption levels, from \$650 to \$750 for single persons and from \$1,200 to \$1,500 for married persons, between 550,000 and 600,000 taxpayers were lopped from the rolls.

Raising of exemption levels again, this time from \$750 to \$1,000 for single persons and from \$1,500 to \$1,800 for married persons remove about the required 500,000 taxpayers from the rolls.

In 1945, the last year for which complete tax statistics are available, the revenue department has reported 145,800 single persons in the \$750 to \$1,000 bracket, and 306,100 married persons in the \$1,500 to \$1,800 group.

Of the 145,800 single persons, there are 124,600 without dependents.

The 306,100 married persons in the \$1,500 to \$1,800 brackets are divided this way:

120,900 with no dependents; 87,900 with one dependent; 60,000 with two; 28,000 with three; 9,300 with four.

MARRIED TAXPAYERS in the \$1,500 to \$1,800 brackets with five or more dependents pay nothing.

The total of the two groups, single and married in the brackets involved in raising the exemption is 471,700.

THE FINANCE department's budget committee comprising the deputy-minister, the directors of the taxation division, the economic, legal and economic relations division and the clerk of the estimates, has finished its job of financial carpentry on fiscal plans for next year, and the actual writing of the budget speech is now under way.

9 Miners Killed In Gas Explosion

EXETER, Pa., April 10 — (AP) — Nine men were killed and nine others injured today in anthracite mine explosion 350 feet underground.

Two victims were found soon after the early-morning blast ripped through the Knox Coal Company operation. Rescue workers digging through the debris several hours later found additional bodies.

ASSISTANT POLICE Chief Ed Petrillo said the explosion, which rocked the workings soon after the men went on the job, was caused by gas. The Eastern Pennsylvania mine located near Wilkes-Barre employs 175 men but only 17 were reported in the shaft where the blast took place.

Would "Isolate" Britain From U.S.

NEW YORK, April 10 (CP) — The New York Times in a Moscow dispatch said today that according to reliable diplomatic sources in the Russian capital the Soviet government has proposed to Britain that a clause be included in the revised Anglo-Russian treaty that would isolate Britain diplomatically from the United States. Because of British refusal to accept any such conditions, the Times said, the treaty revision talks have been stalled.

Dies Suddenly

OTTAWA, April 10 — (CP) — Eric Strangman, 42-year-old special assistant to the deputy minister of labor and a well-known figure in Ontario drama circles, died suddenly last night. He was one of the principal contributors to the writing of Canada's unemployment insurance act and formerly was chief inspector of insurance with the Unemployment Insurance Commission.

TEACHERS NAME EXECUTIVE: At the conclusion of Alberta Teachers' Association annual convention the above members were named to the new executive for the ensuing year. Sitting, left to right, Edmonton district representative, Miss Marian Glimby; past president, H. C. Melsness, Grande Prairie; president, Dr. H. E. Smith, Edmonton; vice-president, E. T. Wiggins, Didsbury; Miss Jean Stewart, secretary to E. C. Ansley, general secretary. Standing, left to right, Calgary district representative, D. Norton; northwestern Alberta, F. C. Toews; Grande Prairie; central western Alberta, A. R. Patrick, Lacombe; southeastern Alberta, J. R. Johnston, Medicine Hat; central eastern Alberta, A. O. Aalborg, Rivercourse; southwestern Alberta, Marion Holman, Diamond City; and general secretary, E. C. Ansley.

Shock Troops Landed From Sea

Greeks Drive to Encircle Rebels

ATHENS, April 10 — (BUP) — Greek shock troops landed from the sea today at Cape Paltamon, southeast of Mt. Olympus, opening an operation designed to encircle and wipe out guerrilla forces in the area of Mt. Olympus and Mt. Ossa.

Earlier reports said 600 paratroopers had been dropped in the Larissa area as the government's offensive against guerrilla bands gathered momentum.

The seaborne forces pushed up the Pinos river valley between the two heights with a view to fanning out and encircling the concentrations of guerrillas reported camped on the slopes.

"Operations are proceeding satisfactorily in all areas," Napoleon Zervas, minister of public order, reported.

TWO HUNDRED fighters, fighter-bombers and Boston light bombers of the Greek air force have been thrown into the offensive, Air Minister Panayotis Kanellopoulos reported.

He said the planes were operating continuously in perfect flying

Pensions Act Amendments Likely Soon

WINNIPEG, April 10 (CP) — Possibility that the proposed amendments to the Old Age Pensions Act would be disclosed after the Easter recess of the House of Commons was advanced here last night by Stanley Knowles, CCF member of parliament for Winnipeg North Centre.

He told a public meeting, sponsored by the city board of the CCF, that they should tell the government what amendments ought to be included and try to get the government to act with utmost haste.

Earlier, he told the Manitoba Pensioners' Association that "the Dominion government would like to get away with as little as possible on old age pensions."

He added "the only thing that is stopping the government from doing this is that the people of Canada wouldn't agree."

Day of Prayer Asked for Britain

LONDON, April 10 — (CP) — An appeal for an appointment of a day of humble prayers for the nation, at home and throughout the British Commonwealth, was made today in a letter to the Times of London signed by a group representing "all denominations."

"We believe the nation needs as never before the upholding and comforting power of God that it may remain steadfast and united amid the difficulties and dangers which overshadow it today," said the letter.

Stassen, Stalin Hold Conference

MOSCOW, April 10 (AP) — Harold Stassen, candidate for the 1948 Republican nomination for president of the United States, talked with Prime Minister Stalin last night. Foreign Minister Molotov attended the 80-minute discussion. Later Stassen told reporters: "we had a frank discussion of the two economic systems." He said that Stalin carried on an alert discussion, now and then smoking a cigarette. Stassen left today for Kiev, capital of the Ukraine.

King Fatigued

COPENHAGEN, April 10 — (AP) — An official bulletin issued today said the condition of King Christian X, who suffered a severe heart attack Sunday, "is still marked by fatigue," but his strength is fairly good.

weather, and had achieved "excellent" results.

DISPATCHES from the fighting areas said 116 guerrillas were killed, 95 wounded and 75 captured following a clash near the village of Frangista.

In other areas the government

offensive involving 60,000 troops supported by tanks, artillery and planes was reported to be making steady progress.

The troops are aiming to destroy the guerrilla strongholds in the area of the Pindus, Olympus, Pilon and Ossa mountains.

Short of Greece, Turkey

Senate Told Russian Expansion Must Stop

WASHINGTON, April 10 — (AP) — Senator Tom Connally (Dem.-Tex.) told the United States Senate today that Russian expansion must be stopped short of Greece and Turkey because the Soviets are aiming for "world dominion."

THE TEXAS SENATOR, top

Democratic member of the foreign relations committee, opened the Senate's third day of debate on President Truman's proposal to extend \$400,000,000 in financial and limited military aid to the two countries with a blunt declaration that Russia wants to "control the destiny of Europe."

"We should demand of Russia that she abandon the methods by which she subjugated the satellite states. We should make it plain that as a nation and a people, we shall resist this effort to destroy the independence or integrity of free peoples."

CONNALLY, whose statements contrasted with the way most administration officials avoided any direct reference to Russia's aims, laid down a four-point program under which he said Russia could gain the friendship of the United States.

To do that, he called on the Soviet Union to cease to infiltrate other countries; cease to employ her armies as a threat to her neighbors; respect the sovereignty and integrity of other nations; perform her obligations to the United Nations to promote peace and peaceful settlements.

"SOVIET RUSSIA, by her system of spreading creeping paralysis among smaller and weaker nations, hopes to bring about world dominion and to control the destiny of Europe," Connally said. "She hungers for 'all the land that joins me.'"

Premier Rests

WILLIAMSBURG, Va., April 10 — (CP) — Prime Minister Mackenzie King, resting in this picturesque colonial capital, spent today "resting, reading and walking," a spokesman said. The prime minister, in the south on a short vacation, was enjoying splendid weather and expressed pleasure at today's sunshine.

Brig. Wilson Dies

BRISBANE, April 10 — (Reuters) — Brig. Lachlan Chisholm Wilson, who in the First World War commanded the first Christian troops to enter Damascus under arms as commander of the Australian Imperial Forces' 3rd Light Horse Brigade, died yesterday aged 75.

Must Retain Productive Capacity

U.S. Urged to Be Atom Prepared But Push-Button War Discounted

WASHINGTON, April 10 — (AP) — Quasi-official military documents urged yesterday indefinite retention of the industrial capacity of the United States to produce atom bombs and maintenance of advanced defensive bases, but discounted the possibility of a push-button war of long-range missiles in the near future.

THE INFORMATION purporting to represent war and navy department "thinking" on problems

posed by development of atomic energy as an instrument of war, was gathered by the library of Congress legislative reference service for use of Congressional committees. The summation was described as "authentic but not official."

The war department summary said that the most the United States could expect from an international control system "is a period of approximately one-year in which to prepare for a full-scale atomic attack with significant quantities of bombs after warning

Hundreds Hurt, Damage Heavy

SAVAGE TORNADO IN U.S. CLAIMS 117 KNOWN DEAD

Murder Charge

Young Farmer To Stand Trial

Exclusive to The Edmonton Bulletin.

McLENNAN, April 10 — Thomas Bouchard, young farmhand, was committed to stand trial for the murder of his uncle, Joseph Louis Bouchard, following a preliminary hearing of the charge before Magistrate Stewart of Peace River, here on Wednesday.

BOUCHARD STANDS trial as a result of investigation by RCMP following a fire last January, that destroyed the Bouchard farm home in the McLennan district. Remains of the elder Bouchard and those of his 23-year-old housekeeper, Annie Wortoniak, were found in the ruins of the destroyed home.

The accused, Bouchard, declared in a statement, presented in court by RCMP, that he struck his uncle in self defence after the latter fired the house by pouring gasoline on the floor.

Const. J. C. S. Guimont, of Lethbridge, read a 45-page statement which accused him of giving him voluntarily last January.

On the night of the murder he and his uncle and Annie had a few drinks, then retired. He said he awoke hearing Annie screaming

Berlin Criminals Are Rounded Up

BERLIN, April 10 — (BUP) — Four power screening teams of Berlin's occupying forces today questioned nearly 500 persons seized since last night in a city-wide dragnet for criminals and army deserters.

Road blocks established at key traffic arteries throughout the city last night brought traffic to a halt while the search was underway.

MAJ. GEN. FRANK A. Keating, U.S. military governor in Berlin, disclosed that among those arrested in his district were 22 persons listed by the Russians as criminals. Three were those which the French classified as "collaborators" with the Nazis. Also picked up were eight known black market operators and one person wanted for hijacking and murder.

Railways' Rates Request Confused

OTTAWA, April 10 (CP) — Confusion over the extent and type of freight-rate increases sought by Canadian railways developed today before the Board of Transport Commissioners.

WHILE BOARD members expressed the view that the railway application dealt only with a specific 30-per-cent increase in rates now charged, railway counsel declared that a boost to that extent in the general ceiling was sought, though it was not intended to put up any rate by more than this percentage.

Both Chief Commissioner J. A. Cross and Commissioner J. A. Stoneman expressed the view the railways were asking for straight increases on existing rates.

Chambers to Appeal

TORONTO, April 10 — (CP) — Sidney George Chambers, 34-year-old cannery plant stationery engineer, has been granted leave to appeal against his conviction on a charge of murder in the death of nine-year-old Marian Rusnak of St. Catharines, Ont., it was learned today. No date has been set yet for hearing of the appeal.

By Carter Bradley

WOODWARD, Okla., April 10 — (BUP) — The known dead in a hop-and-skip tornado that slashed a 150-mile path across the Texas and Oklahoma border last night rose to 117 today, and unconfirmed reports of fatalities ranged as high as 160.

More than 600 persons were injured and 2,500 to 3,500 made homeless. Some 300 were hospitalized in Woodward and nearby communities.

The known dead included: Woodward — 83 bodies counted by Undertaker L. L. Armstrong; 36 of them identified. Higgins, Tex. — 17 bodies identified; eight more missing and feared dead. Canadian, Tex. — Nine bodies identified, including five from Glazier, Tex.

Toll to Pass 100 Mark

Oklahoma Highway Patrol Chief H. B. Lowery and Red Cross disaster relief officials, predicted the toll here alone would pass the 100 mark.

The Woodward undertaker placed an emergency order at Oklahoma City for 150 caskets for storm victims.

Meanwhile, the Texas highway patrol and Red Cross officials reported to Gov. Beauford Jester at Austin that latest estimates placed the two-state death total at 160. These reports could not be confirmed elsewhere, and there was a possibility of duplication.

Hardest hit was Woodward, where the tornado tore a 100-square block hole in the northwest residential district of this town of 7,000 population in the heart of Oklahoma's wheat belt.

The number of injured here was placed at more than 400. Some 350 houses and business buildings were wrecked. The twister slashed through rural areas near Shattuck and Gage, Okla., with unconfirmed reports of fatalities. All communications lines to those towns were out, and the destruction there had not been determined.

Rescuers Probe Debris

Rescue workers by the hundreds dug through piles of debris and scattered wreckage in the Oklahoma and Texas communities, in search for many still unaccounted for.

Flood waters hampered rescue activities at Higgins where heavy rains followed the death-dealing wind.

Bill Lane, a radio announcer for Amarillo, reported from the scene that there had been some looting in Higgins.

Hail as large as golf balls damaged buildings and crops in the wake of the storm at White Deer, Tex.

SCORES OF PEACE officers from northwestern Oklahoma and Kansas patrolled the disaster area in Woodward to prevent looting. Hundreds of Woodward residents

were unaccounted for in the general confusion, but they were not officially listed as missing. Most of them were believed to be in hospitals in surrounding communities or had been given shelter in

All Offerings Sell at Premium

Record Established At Annual Bull Sale

Edmonton's finished cattle sale, sponsored by the Edmonton Exhibition Association, and held Wednesday at the arena sales ring, was described by buyers and exhibitors as the "greatest in Canada." Every one of the 534 offerings paid a premium of 10½ cents above the current market level. This is the first time in Canadian history that all animals sold at a premium, officials stated.

THE T. EATON Company Western Ltd. paid 80 cents a pound for the Hereford grand champion steer exhibited by 13-year-old Lawrence E. Kallal, Tofield, and also purchased the reserve champion from Ed. F. Nod, Olds, paying 39 cents a pound for this animal, also a Hereford. The company made many other purchases.

The sale of purebred sows was equally successful with 117 animals coming under the hammer to total \$9,025, for an average of \$77.14. Top price in this sale was \$229 paid by David Cromie, Pickardville, for the grand champion Yorkshire sow exhibited by H. F. Rowe, Dufield.

The reserve champion sow, exhibited by Lord Rodney, Fort Saskatchewan, was sold to Sam Henderson, Lacombe, for \$175.

Several purchases were made on behalf of out-of-the-province buyers with several orders coming from the United States.

OTHER PURCHASERS of prize winning cattle include: Safeway Ltd., King Edward Hotel; Royal George Hotel; Swift Canadian Company; Burns and Co. Ltd.; Canada Packers Ltd.; Gainers Ltd.; Weiler and Williams; Inter-Continental Packers, Saskatoon; Alberta Livestock Co-operative and Katchum Packing Co., Calgary.

The three-day show concluded Thursday afternoon with the sale of purebred bulls and females.

FIND BODY

VANCOUVER, April 10 (CP) — The body of Mrs. Florence Sharp, 57, of Calgary, was found floating in Lost Lagoon at Stanley Park here late yesterday after three boys had found her coat in the water.

(Continued on Page 3)

For Germany

French Border Plan Opposed

By R. H. Shackford

MOSSCOW, April 10 (BUP) — U.S. Secretary of State George C. Marshall, opposing France's demand for a separation of the Ruhr and Rhineland from Germany, but proposing an autonomous Saar, today appealed to the foreign ministers to avoid imposing boundaries "whose only claim to permanency is force."

Marshall's statement came after yesterday's wrangle over the Polish-German border and a full session today during which the Americans and British emphatically opposed the French plan for detaching the Ruhr and Rhineland from Germany but supported the French proposal for incorporating the Saar into the French economic system immediately.

SOVIET FOREIGN Minister V. M. Molotov was silent throughout today's session at which French Foreign Minister Georges Bidault read three statements. Marshall three statements and Bevin one long general statement. Molotov promised to express the Soviet views on Germany's western frontier tomorrow. He wants a special four-power regime in the Ruhr as does France and which Bevin and Marshall categorically rejected.

No Heavy Loss

Earthquake Rocks South California

LOS ANGELES, April 10 — (AP) — A sharp earthquake, subsiding into a rolling tremor lasting almost a minute, rocked most of Southern California at 7:39 a.m. PST today, but there were no immediate reports of loss of life or serious damage.

SEISMOLOGISTS at California Institute of Technology, Pasadena, said the quake's length indicated that it was deep-seated and probably severe in some locality.

But a quick check of key points from Santa Barbara to the Imperial Valley city of El Centro disclosed no severe loss.

A bank building window was broken in Glendale and there were reports of minor damage in the artist's colony of Laguna Beach. It was felt only lightly in Santa Barbara, to the north, and San Bernardino, to the east.

Occupants of Phoenix, Ariz., office buildings and hotels reported they felt a slight swaying.

DEATHS Recorded Today

Miss Paris of 1947 in Miss Francoise Foucault. She was judged most beautiful girl at an annual ball in the French capital.

Tractor Company At Grande Prairie

GRANDE PRAIRIE.—Union Tractor and Equipment Co. Ltd. has opened a branch office here. This is the fourth branch of the organization in Alberta, the others being located at Calgary, Edmonton and Lethbridge.

G. Lindahl of Edmonton is in charge of general service distribution and W. Kiel, also of Edmonton is office manager. The company has leased four acres from the New West Construction just west of town. The buildings have been converted into service headquarters and a full stock of tractors and equipment has been brought in. Two trained servicemen will do field repair work for the entire Peace River country. They travel in their own equipped service trucks.

CATTLE BEING SPRAYED
RED DEER.—Spraying of cattle for the prevention of warble fly is being conducted at a number of localities in the Red Deer district. The spraying is being done by a large number of stock in that district. Other points report much activity.

Training of workers is a particular Russian goal in the current five-year plan.

Camrose Resident Given Last Rites

CAMROSE.—Mrs. Aastre Knudsen died recently at the home of her daughter, Mrs. A. J. O'Brien. She was born in Telemarken, Norway in 1862 and came to America at the age of eight and settled with her parents in Ocean, Iowa. She married John Knudsen and later moved to Buxton, N. D. In 1906. She has been an active member of the Lutheran congregation and one of the oldest members of the Camrose Lutheran L. A. She is survived by three sons, John and Arlin of Camrose and Edwin of Victoria, B. C.; six daughters, Mrs. Tutland, Everett, Wash., Mrs. O'Brien, Camrose; Mrs. Mjølness, Edmonton; Mrs. Hostvedt, Minot, North Dakota; Mrs. Foster, Edmonton and Mrs. Mortimer of Calgary.

Funeral services were held in the Camrose Lutheran church with the Rev. Grundahl officiating.

Musical Festival Held at Wildwood

WILDWOOD.—Teachers and students receiving considerable tribute, the district school musical festival has proven a great success here. It was the first such festival held in the Edson school division.

Program consisted of the following: Division one: Myrna MacDougall, Arlene Floen, Evansburg and Carola Benson, Fern Shultz of Wildwood. Division two: Lorne Borst, Ronnie Gates, Wildwood; June Campbell, Barbara Shand, Evansburg and Edna Stepanuk, Shirley Hadley of Styal. Division three: Claire Campbell, Lucy Dewald, Evansburg, Dorothy Waldron, Allan Gates, Wildwood. Division four: Madeline Watson, Walter McCormick, Bruce Letendre, Evansburg. Duets, division two: June Campbell and Barbara Shand, Kenneth Melvin and Billy Dewald, all Evansburg; Edna Stepanuk and Helen Monty, Styal; Lorne Borst and Dorcas Shultz, Wildwood. Division three: Mildred McCormick and Audrey Shultz, Wildwood; Lydia Shatzko and Hilda Mueller, Styal; Lucille Dewald and Claire Campbell, Ellen Johnson and Willa Campbell, Evansburg. Division four: Walter McCormick and Bruce Letendre, George and Johnny Dewald, all of Evansburg. Chorus, division school, Styal. Division two, Evansburg, Wildwood; division three, Wildwood, Evansburg; division four, Evansburg. Choral speech, division one: Evansburg; division two and division three: Wildwood. The adjudicators were Mrs. G. M. McLean of Edson and C. R. Ford, division inspector. Mrs. McLean took charge of the musical items while Mr. Ford took charge of the rest.

Hooke Addresses Club at Red Deer

RED DEER.—Hon. A. J. Hooke in an address at the installation meeting of the Red Deer Quota club held in the Buffalo hotel, dealt with the dictatorship and the four freedoms of the Atlantic Charter. The most important part of this charter was left out, he said, and that part was freedom of action. Without freedom of action most of the great inventors who have contributed to our civilization would not have been able to leave us the results of their genius, the speaker stated.

The most important thing lacking in a dictatorship as compared to a democracy was freedom of action. Democracy has proven to be much more superior than an all-powerful world government, which is just another name for a dictatorship, could be. Dealing with war and its aspects, Mr. Hooke said in part, the nature of war is the war of opposing philosophies of life—our democratic concept of life versus the totalitarian. District Governor Velva Brough of Calgary installed the new officers. Present were representatives from the various clubs of the city as well as many guests of the club members.

Donalda to Get New Power Service

DONALDA.—Canadian Utilities Limited will construct a line from Stettler to Donalda this spring to supply Donalda with electric power. The company expects to be in operation here by July and will not go beyond Donalda this year. A private power plant has been operated here for several years by H. A. Page.

Record Building By Red Deer Man

RED DEER.—Some kind of a building record has been set by Art Johnston, auto body man of Red Deer who, a little over three weeks ago, started to erect his new shop.

Monday he moved in, with the building all completed, including cement foundation, hoists and all the other paraphernalia of a body shop installed and ready to go. The new building is of a fairly large size complete with cement foundation and graded front entrance.

Must Reveal Reserves

Block Railway Move At Freight Hearing

OTTAWA, April 10 —(CP)— A railway effort to prevent the freight rates inquiry from plunging into an examination of the financial reserves of such Canadian Pacific Railway subsidiaries as hotels and steamships was ruled out yesterday as the 37-day-old hearing resumed after an Easter recess.

CHIEF COMMISSIONER J. A. Cross of the Board of Transport Commissioners held that the board had already ruled its inquiry should encompass "the whole picture with respect to reserves" and that "the only fair interpretation" would include reserves other than those set aside strictly for rail operations. They would be considered for whatever weight the board wished to attach to them in finally considering its decision on the request of the Canadian Railway for a 30-per cent freight rate increase.

F. C. S. Evans of Montreal, CPR counsel, had contended that an extension of the inquiry into reserves built up from "other income" would be of no assistance to the board in its decision, that there was no suggestion that these reserves were accumulated from or charged to rail operations.

J. L. RALSTON, Maritime coun-

sel, said he had been pressing for information on these reserves because his clients considered them essential to consideration of all factors in the CPR case.

Three Lose Lives In Car-Train Crash

PENTICTON, B.C., April 10 —(CP)—A half-ton truck's race with a train ended here last night in the death of three young Okanagan Valley men. The dead are: Fred Wolfe of Penticton, Paul Able, his cousin of Rother, B.C., and Crestler Isaacs, of Penticton. Police report Wolfe, the driver, was racing to the station when the truck crashed head-on into the engine of a CPR passenger train. The bodies were badly mangled.

The hula originated as a religious rite.

Mrs. Ranton Dies, Funeral Friday

Mrs. Clara Hardisty Ranton of Didsbury, died at Didsbury Wednesday. She was 62 years old. She was born in Edmonton and was the daughter of Mr. and Mrs. James Ranton. Her father was the first baker in Edmonton.

In 1927, she moved to Didsbury with her late husband, Edward G. Ranton, and lived there till her death. She was a member of the Old Timers' Association.

Surviving her is one son, Bill of Didsbury, two sisters, Mrs. W. A. Griesbach, Mrs. F. E. Moroney, all of Edmonton, and two brothers, Thomas J. Ranton, Edmonton, and James Ranton of Vancouver.

Funeral service will be held in the Andrews McLaughlin Funeral Chapel on April 11, at 3:30 p.m. The Rev. J. MacBeath Miller will officiate and burial will take place in the family plot at Edmonton Cemetery.

Poland

(Continued from Page 1)

allitarian threat" to Greek and Turkish independence.

"We have indeed heard . . . that the independence of Greece is threatened," he said, "but we have not been told by whom."

LAKE SUCCESS, N.Y., April 10 —(BUP)—The United States defied the Soviet bloc's attack on the Truman doctrine today and asked the United Nations Security Council to help build up "domestic tranquility and security" in Greece. Denying an American attempt to meddle in Greek and Turkish affairs, American Delegate Warren Austin charged that Russia was attacking a program which so far is nothing more than a proposal to the United States congress.

The United States demanded that the Security Council defer action on the Soviet proposal which would place American aid to Greece under United Nations supervision.

Preparedness

(Continued from Page 1)

faster technique were developed, several years would elapse before another country could produce a "significant number of bombs" (significant in the sense that would provide an important military capability).

ON THE BASIS of these calculations, it concluded:

"(a) For a number of years, perhaps as many as eight to 15, only the U.S. will possess atomic bombs in significant quantities. "(b) After the period mentioned in above other nations will possess atomic bombs in significant quantities."

WASHINGTON, April 10—(AP)—The United States atomic energy commission came out of its storm cellar today and plunged into long-range planning for peaceful and military development of nuclear power.

The tornado which roared about the commission during 11 weeks of argument subsided last night when the Senate voted 50 to 31 to confirm David E. Lilienthal in the chairman's job he has held since last Jan. 1. Four fellow commissioners and General Manager Carroll Wilson also were confirmed without the formality of roll calls.

Krug Strikes Back At John L. Lewis

By LAURENCE GONDER

WASHINGTON, April 10—(BUP)—Secretary of Interior J. A. Krug today charged the United Mine Workers Union (AFL) with an "almost unbroken record of neglect" in promoting coal mine safety.

KRUG, WHO OPERATES the nation's soft coal mines for the government, struck back at the UMW's leader, John L. Lewis, who had accused him of "criminal neglect" in the Centuria, Ill. disaster where 111 miners were killed.

Krug recommended to a Senate public lands subcommittee a five point safety program for the coal mines.

Krug's charge was made as officials awaited the government's intention in the "safety strike" of the UMW soft coal miners.

Evangelist Guest At Dinner Meeting

DR. C. E. FULLER, California evangelist, was guest at a luncheon meeting Wednesday in the Macdonald hotel, tendered by the Edmonton committee of the Christian Businessmen's Association.

Orvis A. Kennedy, chairman of the committee, presided and Premier Ernest Manning was a special guest.

Dr. Fuller is to address a mass meeting in the Edmonton Arena Wednesday evening. Premier Manning will be chairman of this meeting, which is also under the auspices of the Edmonton committee of the Christian Businessmen's Association.

To Stand Trial

(Continued from Page 1)

his name, and he could see his uncle pouring gas on the floor which was on fire. Then he noticed the girl lying on the floor and the fire burning all around her. His uncle hit him with a piece of wood and knocked him out for a few minutes. Then he saw his uncle pick something up by the stove and run outside, so he ran after him and his uncle hit him again with the wood, so he took it from him and hit him. Then he saw that the house was in flames.

He shook his uncle, asked him what he thought he was doing, and then when he got no answer, he saw that his uncle was dead. This frightened him so he dragged him to the burning house, and threw him in, and poured coal oil in the house. He said he did not want to kill him. He had not killed the girl. Seeing that he had blood on his underwear, he took these garments off and threw them in the burning house. He then ran a mile to his neighbors. They took him in and cared for him and took him in to the hospital at McLennan.

Tornado

(Continued from Page 1)

homes that escaped the brunt of the storm.

Grieving and dazed relatives of the missing at times hindered rescue work. Some of them dug into debris with their fingers, others used sticks to pry apart the wreckage of splintered homes.

AIRPLANES JOINED the stream of vehicles carrying medical aid to this stricken community.

Hospitals in Woodward and a half dozen other cities and towns of northwestern Oklahoma were unable to care for the injured.

Because the injured were so widely scattered, Lowery said it might be two weeks or more before the final casualty list from the storm can be compiled.

The Woodward storm may prove to be the most deadly in Oklahoma's 56-year weather history. The highest recorded death toll was 87 in a tornado that destroyed the town of Snyder, in southwestern Oklahoma, May 10, 1905.

THE TORNADO roared into Woodward so suddenly that most persons in its path did not have time to run to storm cellars. One survivor, Leo Jack of Enid, Okla., said the only warning was a "big whoosh" that preceded the brunt of the wind.

The European world obtained the word China from the then ruling dynasty known as Ch'in.

Policeman Runs Amok at Coast

VANCOUVER, April 10—(CP)—A 25-year-old city police constable was booked at police headquarters for investigation last night after he reportedly ran amok, commandeered an auto and threatened citizens in downtown streets with a revolver. He was finally subdued by five fellow officers.

Await Agreement In Phone Strike

By CHARLES HERROLD

WASHINGTON, April 10 —(BUP)—Representatives of the American Telephone and Telegraph Co. and the American Union of Telephone Workers (NFTW) today completed a tentative "understanding" for settlement of the long lines dispute in the four-day telephone strike.

UNION PRESIDENT John J. Morgan emphasized, however, that the agreement must be approved by the top policy committee of the national federation of telephone workers before it can be signed in contract form.

Morgan took the "understanding" before the 49-member union policy committee. A vote was expected within a few hours.

It was not until 1909 that investigators discovered infantile paralysis was caused by a virus.

Says Wage Boosts May Be Justified

WASHINGTON, April 10 —(AP)—President Truman said today that unless prices come down wage increases will be justified. The president told a press conference that the justice department is studying the question of whether manufacturing concerns can combine to lower prices without running afoul of the anti-trust laws.

UNDER ONE supreme court decision, Truman said, it would be unlawful to combine to cut prices just as it would be to group together to raise them.

The president said this survey is being conducted as one means of getting prices down since the government's power over prices ended last year and it would be impractical to reinstitute price control. He does not believe the people want such controls.

Quebec Considers Distinctive Flag

QUEBEC, April 10 —(CP)—A distinctive flag for Quebec province was approved in principle yesterday by a legislative committee that agreed, however, to move carefully pending possible action by a federal parliamentary committee in selection of a national flag.

To Make Movie On Soviet Spying

NEW YORK, April 10—(CP)—Twentieth Century-Fox will produce a film dealing with Russian espionage in Canada and the United States under the title "The Iron Curtain," the studio said today. It will be filmed as a semi-documentary and will utilize material from the June, 1946, report of Canada's commission

Gets \$2,500 Fine

VANCOUVER, April 10—(CP)—Found guilty on five charges of making false returns to the Income Tax department, Frank Morgan, president of the San-O-Heat Company, plumbers, yesterday was fined \$2,500 by Magistrate W. W. McInnes in city police court.

Building Permits Slump

During the first three months of this year building permits issued in Edmonton call for a total expenditure not much more than half the amount indicated by the permits issued in the first three months of last year. And three-quarters of this money is to go into commercial buildings, only one-quarter into new houses.

In the past three months only 85 house-permits were issued. Last year the figure was 250. At the end of March the house-building program was one-third that at the same date a year ago.

Perhaps the weather had something to do with this sharp reduction in house-permits. But one would suppose that any person intending to put up a house would get his permit early, regardless of weather, so as to have first chance at scarce materials and labor.

The high cost of construction is the big factor in holding back house-building, in Edmonton and elsewhere. There can hardly be a doubt of that, for the demand for new living space is practically unlimited. Costs will have to come down if houses are to go up in anything like the number required, or in any number large enough to take the tenseness out of the housing situation by the end of the coming summer.

Nobody likes the idea of paying Government bonuses for house-building—or any other purpose, unless it is some one with a personal interest to serve. But what other means offers? That is the practical question. And no person seems to have found the answer. Putting up houses to rent or sell is not an attractive investment. It isn't even rated in any general way as a fair speculation.

That seems to narrow the choice down to: bonuses for building or a continued shortage of houses.

Bad Business

President Truman has appealed, repeatedly and very earnestly, to businessmen in the United States to keep prices down, and to cut them down where that can be done without sacrifice.

This advice is equally good for businessmen in Canada. Controls here, too, are in the process of being abolished, by degrees, and buying and selling restored to normal pacetime freedom. But consumer supplies are still low and far from uniform. It is still a seller's market, rather than a consumer's market.

This situation gives manufacturers, wholesalers and retailers an opportunity to take advantage of the customer. But it is an opportunity which they will do well to resolutely ignore, in their own interests and those of the country. There is no uncertainty about the long range results of gouging.

The seller's market will not continue. It is passing with the passing days. As supplies increase the consumer will become more discriminating. And he has, in the mass, a good memory. He will not forget the dealer who over-charged him, nor the brand of goods that was sent out at an abnormal factory-price. As his range of choice widens he will do his buying somewhere else, and ask for other brands of goods.

Canadian business generally was conducted on fair and honorable lines during the war. It must still be conducted on those lines or the nation's economy will be thrown into a period of upheavals and interruptions—with political reactions no businessman can want.

Nothing spreads totalitarian ideas more surely than to destroy public confidence in the democratic way of life. Free enterprise is based on the principles of honest competition and fair-dealing. Only on that basis can it continue to exist.

A Beloved Christian Leader

His Grace the Most Reverend Derwyn T. Owen, Primate of all Canada, has died suddenly in Toronto of a heart attack and the Church of England is plunged into regretful mourning for one of the great leaders of the Christian Faith.

The primacy of Archbishop Owen was distinguished by a rebirth of zeal and activity and reform in the Communion of which he was the capable and beloved head. Specifically, it was under his leadership that the Forward Movement was launched, the Anglican Advance and the conversations with other Christian Communions in Canada looking towards reunion.

He was a master administrator, an ecclesiastical statesman of a high order, a famed scholar and a most respected and esteemed pastor.

As much as the late Primate was ad-

mired in Canada, his worth was appreciated similarly in other parts of the world.

He was well-known to the Church in the United States. He was venerated by the ecclesiastical authorities of Britain. Nor was this regard and affection confined to members of his own Communion. As chairman of the Canadian Council of Churches, he held the good will and deep respect of every denomination in this country.

He was one of the notable figures of the universal Church.

Until the election, by General Synod, of a Primate to succeed him, the office will be administered by the senior Metropolitan of Canada who, at present, is Archbishop Adams of Kootenay.

Under the canon law of the Church, every bishop is eligible for elevation to the primacy. The election must be approved by both houses of the General Synod. Forecasts in such matters are a hazardous and uncertain undertaking, but there is a strong likelihood that, with Archbishop Sherman of Rupert's Land voluntarily out of the running through ill-health the choice will lie between Archbishop Carrington of Quebec, Bishop Hallam of Saskatoon and Bishop Kingston of Nova Scotia.

Mr. Gromyko Is Content

Senator Tom Connolly of Texas put into words what must have been the pretty general conclusion of people who read what Mr. Gromyko said at Lake Success. Mr. Gromyko, said the Senator, does not want the Middle East countries to get any aid.

In his statement the Soviet representative ruled Turkey out absolutely—it should get no help of any kind from any quarter. As for Greece, help should be given it only through the United Nations—an untried organization, which apparently had not heard that Greece needed any help until President Truman sent his message to Congress, and where Mr. Gromyko would be able to block or retard any aid plan while Greek economy went from bad to worse under the combined attack of inflation and foreign directed guerrilla forces.

This statement confirms the quite obvious moral of the circumstances. Without prompt financial—and some directive—assistance, there is every prospect that Greece will collapse, as its premier has stated. And without aid—probably of both kinds also—Turkey will exhaust its resources keeping an army mobilized against the threats conveyed in Moscow's demand that it surrender control of the Dardanelles.

Whatever the United States may do about it, the Middle East situation is undoubtedly satisfactory to those who would like to see these two countries founder economically—and be "renuscitated" eventually as satellites of Moscow.

Looking Backward

From The Bulletin Files

1887: 60 Years Ago

Inspector Casey has been appointed to the Edmonton post, G division, of the Police.
C. Carson of the Sturgeon settlement delivered fourteen common seamless sacks of oats to the police which weighed 1,670 pounds net, or 119 pounds per sack.

Lone Man was started for Regina on Saturday to stand his trial for the murder of Melvor on the South Branch in the summer of 1885 and for an attempt to murder Constable Loasby at Fort Pitt the same spring.

The Hamilton Spectator wants to know why some of the Grit papers have not counted N. F. Davin an independent. If The Spectator feels like gambling on Mr. Davin's subservience, unless on condition of his admission to the cabinet, it had better go light for a while.

1897: 50 Years Ago

Ice is breaking up at Fort William and lake navigation will open in a few days.

1907: 40 Years Ago

The first train to reach Edmonton from Winnipeg in nearly three weeks on the line of the CNR steamed into the station at four o'clock Sunday morning and a hundred weary passengers disembarked. The train was exactly fifteen days late. It left Winnipeg on March 26 and for seventeen days was battling with the snow blockade twenty miles east of Humboldt.

Mr. Kinnaird read to the Canadian Club the report of F. G. Todd, Montreal, the landscape engineer employed by the city to suggest means of adding to the beauty of Edmonton.

1917: 30 Years Ago

London: A land settlement scheme proposed by Hon. Robert Rogers for the settlement of ex-soldiers in the prairie provinces is announced here.

1927: 20 Years Ago

Fisheries production in Alberta in 1926 totalled \$740,000.
Edmonton sinking fund now contains more than \$10.5 millions.

1937: 10 Years Ago

R. P. Ottewill, oldest of the Clover Bar pioneer settlers, observed his 89th birthday.

W. M. Watt, for 23 years employed in The Bulletin in composing room, died.

Don P. Medalle, U.S. vice-consul at Edmonton, is to be transferred to Montreal.

Toronto: General Garnet Hughes died.
Permits totalling \$13,000 and including four modern homes were issued by the city building department between 9 a.m. and noon. They included J. Gordon Sinclair, dwelling at 10940 82 avenue; A. Pluin, dwelling at 10935 80 avenue; Martin Henning, dwellings at 11402 97 street and 11406 97 street.

Grande Prairie: Herman Trelle has been presented with a de luxe Ford V-8 by Henry Ford, president of the Ford Motor Company in recognition of his work in producing championship grain.

Today's Text

And as they did eat, He said Verily I say unto you, that one of you shall betray me.—Matthew 26: 21.

AND NOTHING CAN BE DONE ABOUT IT

by Webster

'Open City' Movie

BY ELMORE PHILPOTT

If you want to see a boy-meets-girl movie—ending with wedding bells and "they all lived happily ever after"—don't go to see the Italian movie "Open City."

But, if you want to see what World War II was like when brave men and women and boys and girls in Italy were helping to throw off the German yoke, then by all means go.

And maybe if you go you will react like I did at the preview. Maybe you will say a fervent prayer that we never do get that World War Three of which so many people are talking. For if we do, what you see in "Open City" is what you and your country and your family will experience.

THE GENERAL character in this Italian picture, "Open City," is a brave priest of the underground resistance. His part is really beautifully played. I suppose some people may say, "Here is the church propaganda again," but that seems to me to be unfair. There are scores, maybe hundreds or even thousands, of brave Catholic priests who played key parts in the underground preparation for the overthrow of Fascism.

Anyway, the priest is only one of

several magnificent characters who make this picture really live. I don't wonder that they gave it the palm as the finest foreign-made picture of 1946.

But just a word of warning. If you are over-squeamish, keep away.

THIS GREAT Italian picture highlights one deep riddle of these times:

Why did the German nation—in so many ways the most highly cultured in the world—sink to the lowest depths of sub-human cruelty?

It seems superficial to say "because of Hitler."

I do not agree that you can explain the phenomenon of two made-in-Germany world wars in one lifetime by the doctrines of Karl Marx.

The real German trouble seems to me to have been an ethical trouble—a religious trouble. If you prefer that term—one of head and heart, not belly.

In the middle of the last century the German professors began to come out with the theories of amorality—that is, that there is no such thing as right or wrong, but only what will work or won't work.

It took those foul ideas about sixty years to work from the universities out to the 1914 army policy of "frightfulness." The concentration camps of 1933 were just another step around the corner.

NEVER FORGET that the Ger-

mans were anything but a nation of "yes men."

When you see one brave Italian priest die, remind yourself that millions of "Aryan" Germans also died just as bravely because they refused to bow the knee to Hitlerism—because they refused to go along with the preachers of the new religion of scientific bestiality.

The real indictment against Germany is that as a nation she rejected and repudiated the age-old heritage of what we call "Christianism."

There were many streams which flowed into the great river of western tradition. But every single stream that poured into the main river made deeper the one main current. That was, and still is, the principle which the Psalmist David called "goodness and mercy."

You can find contributions to this common pool of "goodness and mercy"—kindliness, compassion, charity. You can find them all the way from David to Robert Burns.

The Germans rejected this whole principle. They literally agreed to "stop at nothing" to gain their ends.

The Germans were first and worst bitten by this soul sickness. It does not necessarily follow they will be the last.

The Coal Crisis

BY DOROTHY THOMPSON

and John L. Lewis negotiated a new contract, it contained a long overdue safety code. Meanwhile Mr. Lewis and the UMW have been found in contempt of court, sentenced and fined. But the Centralia disaster finds the government in contempt of the safety code. The memorial week's strike is the miners' sentence and fine against the government for

that contempt, and Mr. Krug is forced to shut down mines furnishing 26 per cent of the nation's production for safety reasons.

So who has won in the struggle? No side will ever win in a conflict within a brotherhood. Only justice and decency can furnish victory for all.

London Cavalcade

BY FRANK B. WALKER

London: It will be four or five years before Britain's fire country is back to normal production. The floods, which inundated thousands of acres, will leave their mark long after they have gone. The fens are really giant sponges and once they have been saturated they re-

turn to marsh. Long buried bulrushes and marsh plants spring back to life and the farmers will have to begin all over again the job of restoration. Most of the houses in the flood areas have been buried under the waters and only the villages built on little hills have survived. The fen land is about five feet above sea level and the rivers which drain it are often confined within banks fifteen feet higher than this. When a break through comes, it does not stop until this water is levelled off. They were first drained by the Duke of Bedford and Dutch engineers in the seventeenth century, against the opposition of fen people, who lived a wild and rather sinister existence in the marshes.

SIR VALENTINE Holmes' report into charges of corruption levelled against certain members of the staff of the BBC showed these allegations to be entirely unfounded. Like its Canadian counterpart, the BBC can only use so much talent every year and the fact that many performers find themselves unable to obtain as many engagements as they feel they deserve is probably, Sir Valentine writes, "the only sort of origin of all rumors."

Unlike Canada, however, the unfortunate radio artist in Britain has no where else to turn if he does not work for the BBC, which is probably another good reason for an alternative service.

THE LIBERAL party, small in elected representatives, but big in influence, has recently published "A Statement of Liberal Policy," which will come before the party's annual conference. It offers the alternative to socialism. "The Liberal party has proclaimed ownership for all as the goal of Liberal social policy and declared its belief in the individual ownership of

property by all as the only alternative to state monopoly. Its aims are, therefore, not the destruction of private property but the creation of more wealth and its better diffusion."

THE AUCTION of furniture and books belonging to Mr. H. G. Wells revived many memories of this strange, brilliant man, who could never be corralled into the accepted order of life. The library showed the wide interests of Wells, ranging as it did from Nietzsche, Suetonius, Belloe, Haldane, Gissing and Lord Beaverbrook, to the lives of the Saints, Swift, Deigo, Plato and Christina Rossetti. Many of the books were inscribed by the author. Wells had marked in Lord Beaverbrook's "Success" this passage: "Practical success alone makes early middle age the most pleasurable period of a man's career."

WORK is continuing slowly on the new House of Commons to replace the Chamber which was destroyed in the raid of May 10, 1941. It will be three to four years before the new structure is open for business. When it is, the Lords, at present crowded into the King's Robing Room, will be able to return to their own Chamber. The new House of Commons will be like its predecessor but will have some much needed extra accommodations. Some idea of the size of the Palace of Westminster can be gathered from the fact that it covered no less than 500 rooms. The bomb damage is being repaired slowly but no one has yet straightened out the sword of Richard Coeur de Lion. It is time they did. It must be most humiliating for that great monarch to sit on his charger, waving a sword above his head, the end of which dips weakly downward.

After butterfat, or cream, is removed from whole milk, the resulting skim milk constitutes more than one-half the weight of the whole milk.

Expansible Homes

BY HARPER PROWSE, M.L.A.

I was discussing the housing situation with a friend who is a doctor recently, and his comments were so interesting that they seem worthwhile passing on. His chief point, one which I haven't run across before, was that the housing shortage was causing a great many people to limit the size of their families. He believes that the present trend towards the construction of small homes and apartments is one of the chief factors causing Canadians to have small families.

"I have had a great many mothers come to me for care. When the first baby is on its way they are nearly all overjoyed. There is nothing remarkable about this, of course. But I discovered that when the second was coming along they all seemed to hope it would be the same sex as the first one. And if a third one was on its way their happiness was only too often tinged with despair.

"When I questioned them I found that most of them had the same thought in the back of their minds. They lived in homes with only one or two bedrooms. One child presented no problem. Two children presented no great problem if they were the same sex. But if one was a boy and the other a girl it presented them with a need for another bedroom. Today there are very few houses or apartments being built with more than two bedrooms."

THIS PARTICULAR doctor believes that Canada needs large families. It is in the best interests

of the children, of the parents and of the country for Canadians to have large families. But how can they have large families in three-room suites and four-room bungalows?

Due to the high cost of housing, homes being built are, almost without exception, small homes. The rooms are small and few. There is no room in them for family expansion.

This is a factor which seems to have been neglected by our planners. It is a factor which has been overlooked by many young couples who have bought or built homes during the past few years. Necessity forced them to take whatever they could get, financial necessity made it necessary for them to take four or five-room homes—and smaller. Now they don't dare have any more children because they wouldn't know where to put them.

ONE OF the solutions to this would be for our architects to design homes which could be expanded to meet demands imposed by increases in the family. Most of our modern, packaged homes, are so designed that it is impossible to add new rooms without practically rebuilding the entire house. Yet it should not be too difficult to design a home to which additional bedrooms could be added without too much extra expense and without destroying the external appearance. National Housing Act and other housing officials might take a note of this.

The Bulletin's Readers Say:

DAYLIGHT SAVING

Editor, Bulletin—If business men in Edmonton wish to open and close an hour earlier in spring and summer why not pass a by-law stating that during certain months or from the period from the day of - to the day of all business will be open during those hours and for the rest of the year from - to on all week days exclusive of Sundays and public holidays. Our time is fixed by the sun. Why should we fool with our watches and clocks? If a law is passed we are supposed to observe it. State the correct time in your district and we have no trouble. The rest of the Dominion and world will operate on sun time and we can visit other places without fooling with our watches or cursing the time tables.

BETHELL HAYDON
Mayerthorpe, Alta.

THE NAHANNI VALLEY

Editor, Bulletin: I have read articles in The Bulletin and elsewhere concerning the Nahanni river and the tropical valley supposed to be in that vicinity. I have trapped in the Nahanni mountains and the lowlands on the Nahanni river and so covered quite an area. In my travels I did not come upon the spot they call the tropical valley. But I did come upon a huge cave made by early inhabitants who passed through there, according to archaeologists, some 20,000 years ago.

I do not know of any other man who has seen this cave. I inquired

among Indians if they had seen a cave where the cliff dwellers once lived, and they all say no. But there are white men who have travelled through the Nahanni country who claim to have seen it.

I have given no man the clue to where this cave can be found. All I have mentioned to anyone is that I have found a cave. It is a wild, rugged country so any of my information would be a very poor lead.

If there is a man or a party interested enough I will arrange to take them.

There are quite a number of hot springs in the Nahanni valley and very nice scenery. I also found a coal seam, but a tropical valley is news to me.

ED. CLAUSEN,
Fort McMurray.

Disabled Yacht Taken in Tow

LOS ANGELES, April 16 (AP)—Actor James Cagney's disabled yacht, The Swift, was taken in tow by the Coast Guard cutter Perseus today and headed toward Newport harbor, its home port. The Perseus reported that she sighted the 125-foot auxiliary schooner 6 1/2 miles south of Dana Point in the Pacific ocean. Last night Cagney radioed: "engine disabled off Laguna Beach, unable to make harbor by sail, request help."

FLYING PROGRAM
A flying program for 418 Auxiliary Squadron will be conducted Saturday and Sunday, April 12 and 13. 'A' flight and No. 1 crew will be on duty Saturday and 'B' flight and No. 2 crew on Sunday.

Say Farmers Need British Market

YORKTON, Sask., April 18.—(CP)—Agricultural Minister Gardiner said last night that Canadian farmers need the British market for meat, dairy and poultry products "at least until we can build our own population to double its present numbers."

"CANADA'S GREATEST need during the generation ahead is increased population," Mr. Gardiner said in an address before the Yorkton Board of Trade. "If we are to meet the need we must keep our young people at home and induce others to come and stay."

Advising western farmers that they can improve their position during the next four years compared to the last four only by growing more barley and feeding more livestock, Mr. Gardiner said "Britain is pleading for more meat, dairy and poultry products in 1947-48 and 1949 and is guaranteeing floor prices."

Alexanders Plan Visit to Jasper

OTTAWA, April 10 (CP)—The Governor-General and Viscountess Alexander will see a lot of Canada in the next four months, Government House officials disclosed yesterday in announcing the vice-regal summer itinerary.

LEAVING OTTAWA the end of April, Viscountess Alexander and Viscountess Alexander will spend the first three weeks of May in residence at the Citadel, Quebec City. Later they will tour western Ontario, returning to the capital June 1.

Towards the end of June the Governor-General will spend a few days fishing in the Restigouche River, New Brunswick.

During July Their Excellencies will visit Jasper National Park, the Yukon and North West Territories. They will visit Cape Breton and Nova Scotia in August.

Details of the itinerary have not been completed.

Funeral Rites On Saturday Tributes Paid Primate

TORONTO, April 18 (CP)—From all parts of the Dominion today came tributes to Archbishop Derwyn Trevor Owen, Anglican Primate of Canada, who died here following a heart seizure.

AT OTTAWA, External Affairs Minister Louis St. Laurent said Canada had lost a "great religious leader" and expressed the sympathies of the Canadian government to the late Archbishop's family.

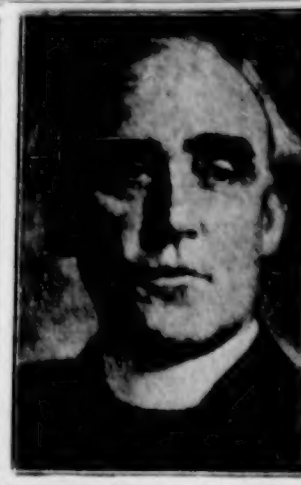

Archbishop L. R. Sherman of Rupert's Land, said at Winnipeg, "The news of his passing comes as a great shock. Since his election in 1934 he has done more than any other man to unify the Church of England in Canada and make it better known to all. Well done, good and faithful servant."

Rabbi Feinberg, Holy Blossom Temple, Toronto, said "I sensed the saintliness of character... that glowed in his personality. His passing will be felt by Canadians of all creeds."

Rt. Rev. Gordon Maclean, moderator of the Presbyterian Church in Canada, said, "he was a wise and prudent leader. His death will be a great loss... to the whole Christian church in Canada because he was willing to seek the welfare of all Canadian, regardless of denomination."

JAMES CARDINAL McGuigan, Roman Catholic Archbishop of Toronto, said, "... a true Christian gentleman... ever anxious to use his labors and influence for the progress and development of Canada and advancement of Christian ideals."

Rev. W. J. Gallagher, general secretary of the Canadian Council of Churches, said, "he was our first president and we regarded him not only with admiration but with affection. The whole Christian community of Canada has suffered a sore bereavement in his passing."

Archbishop Derwyn Trevor Owen

Calgary Giving Tops Dominion

OTTAWA, April 18.—(CP)—Community chests in Canada last year raised \$7,828,516, the largest sum in their history, to carry on the work of social welfare agencies, R. E. G. Davis, director of the Canadian Welfare Council, announced yesterday.

ALTHOUGH the chests did not reach their \$8,355,477 objective, which was "substantially" higher than a year ago, they nevertheless collected \$645,729 more than in 1943. Most of the communities managed to raise anywhere from 80 to more than 135 per cent of their quotas.

Calgary topped the per capita list with \$2.75. Montreal had \$2.51, and Toronto lagged behind with \$2.01. Vancouver was down to \$1.47, and Winnipeg to \$1.40. The smallest per capita contribution of 31 cents was from Quebec City.

Strike Notices Sent to Networks

NEW YORK, April 10.—(AP)—Thirty-day strike notices were mailed yesterday to major networks and other radio stations by the Radio Writers Guild representing 1,700 free lance writers who turned out scripts for most of the nationally-heard programs in the United States. A guild spokesman said main issues included: Continued ownership of scripts after their acceptance for broadcast and "slight" changes in minimum wages and working conditions.

The shrub of the huckleberry sometimes reaches a height of 12 feet.

RAF Looks To Future

Expect Train Fliers at 700 MPH

By Michael O'Mara
STANMORE, Middlesex, England, April 10.—(CP)—The RAF Fighter Command is looking ahead to the day

when military aircraft operate at speeds exceeding 700 miles an hour, and laying its plans accordingly.

IN A FORMER priority, once the rendezvous of jets and streamliners, and later the nerve center of the RAF's fight against the Luftwaffe, an exhibition demonstrating 20 years of development in aerial defence was shown to reporters with the admonition that "this is not a museum."

"We are not living in the past; we are looking ahead," said Air Marshal Sir James Robb, air officer commanding the fighter command.

One answer to the challenge of speed was the jet-propelled fighter—"one of the biggest steps yet in military aviation"—which will soon be in service use, he said. Last year the aircraft set a world's airspeed record of 616 miles an hour in tests largely conducted at low levels.

"IT REMAINS to find out what happens at the operating heights of the future—35,000 feet and above," said Sir James. "We want to find out something of the behaviour of the pressure cabin, visibility distances, the type of armament to use, the effect on the pilot and manoeuvrability at great heights."

In this connection a series of experiments now in progress off the Scilly Isles, in which miniature pilotless jet-propelled craft are released from mother-airplanes to fly for short periods at speeds which it is hoped will enable the craft to break through the sonic "compressibility barrier."

Radio-controlled instruments aboard the jet-planes will signal ground-stations during the flights, recording conditions experienced. **PROUD OF ITS** record in the Battle of Britain and later in the war as the Allies gained control of European skies, the command has established in the underground control centre a permanent exhibit displaying many of the devices which helped win the air war.

Radar devices are on view and scale models of aircraft used by the RAF since its inception are

Ontario Boosts Women's Wages

TORONTO, April 18.—(CP)—An increase of 30 per cent in minimum wage rates for all female employees in Ontario will take effect June 1, according to an order issued yesterday by the industry and labor board of the Ontario department of labor. With certain exceptions, particularly domestics employed in private residences and women in agriculture work, the Minimum Wage Act covers factory, office workers and almost every other category. The province is divided into zones for the application of the act and minimum rates range at present from \$10, \$11 and \$12.50. The latest order makes the corresponding rates \$13.80, \$15.80 and \$16.80.

Offers Pay Fare For Fed-Up Reds

TORONTO, April 18.—(CP)—Reeve W. E. McDonald of suburban New Toronto, yesterday agreed to pay the passage to Russia of any Communist who found himself dissatisfied with Canada. His announcement came after Stephen Grynzyan declared the town's Ukrainian hall was being used to teach the tenets of Communism to children of Ukrainians.

3 Canadians Hurt As Train Derailed

RATON, N.M., April 10.—(AP)—Three Canadians were among the 20 passengers injured when the Santa Fe Railway's eastbound Super Chief, diesel-powered extra fare train, was derailed at Bland siding five miles south of here at 7:30 p.m. last night. The Canadians, all taken to hospital were: Mrs. Margaret J. Robertson, Montreal; Mrs. Jeannette Johnson, Toronto; and Mrs. J. S. Brown, Toronto.

The vine of the rattan palm is sometimes 1,000 feet long, a record in the plant world.

Plan Send Negro Kiddies to States

LONDON, April 18.—(AP)—The Negro Welfare Society of London and Liverpool said yesterday it planned to send 5,000 children of British girls and American Negro soldiers to the United States to be reared by the fathers they have never seen.

THE SOCIETY said the step awaited the approval of the British and United States governments.

The announcement added that 5,000 other such children remaining here would be reared in a special boarding school soon to be opened in Liverpool.

"The mothers just cannot fit them into family and community life," said Ernest M. Kendall, Jr., the society's lawyer. "They are giving them up. We are making the arrangements."

MIXED MARRIAGE always has been more common, proportionately, here than in the United States. In August, 1945, on the eve of the departure for home of some of the Negro troops, some men broke through barred wire barriers at Bristol barracks to rush into the arms of sobbing white girls.

About 60 per cent of the children

fathered by negro soldiers here were born to married women, Kendall said.

The chief ports through which India's international trade passes are Bombay, Calcutta, Karachi and Madras.

ALWAYS READY FOR HER MEALS

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as loss of appetite, stunted growth, soft bones, poor teeth, faulty nerves, defective eyesight.

Ovaltine supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaltine furnish a significant portion of a child's daily requirements of Vitamins A, B₁, C, D, Riboflavin (B₂), and Nicotin and Minerals Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complete proteins to build muscle, nerve and body cells—high-energy foods for vitality and endurance. It thus acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underperforms, perhaps nervous, why not try delicious Ovaltine for normal growth and better appetite.

Barbara B. Brooks, Kellogg's noted Home Economist, specializes in translating the science of nutrition into easy ways for you to help your family to more appetizing, balanced meals.

How to serve satisfying meals in spite of spring cleaning!

by Barbara B. Brooks
well-known Kellogg's Home Economist

With spring cleaning, the extra work it takes to get meals, is almost too much. Here are meal-time-savers that help you prepare quick nourishing meals and leave you plenty of time for the big task.

When the spring cleaning bug attacks you, do you rush your family through breakfast... so you can get busy? Don't! In Springtime, when appetites are so unsettled, your family needs a nourishing breakfast. It's easy to get this when you include a ready-to-eat cereal with breakfast. Just one ounce of cereal, 4 ounces of milk and one teaspoon of sugar provides 10% of your day's nourishment. And it's so quick to prepare! At breakfast, serve All-Wheat. It's whole wheat—tasted a golden-brown, and very delicious. It's one good way to see your family gets a share of the carbohydrates, protein, iron, phosphorus and other vital food elements they need.

Sausage and Apple Stacks
1 1/2 cups Krumbles 1/2 pound pork sausage
1/2 cup milk 1/2 teaspoon salt
1 egg, slightly beaten 1/4 teaspoon pepper
1/2 pound ground beef 2 tablespoons minced onion
2 medium apples

Combine Krumbles, milk and egg; let soak until most of moisture is absorbed. Add meat, seasonings and onion; mix thoroughly. Divide mixture into twelve equal portions and form into thin patties.

Pare, core and slice apples crosswise. Put apple slice between two patties and press together. Arrange in shallow pan. Bake in moderate oven (375°F) 30-35 minutes or until meat is done and apple is tender.

Yield: 6 servings.

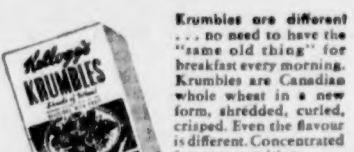

"Come on over to our house after the show!" says your daughter. She forgets what spring cleaning has done to you... and she expects mother to help with the refreshments. What to give them? What's easy? What's good? Why not keep it simple? It's a casual invitation so everyone will thank you for a dish that's tasty and fun to eat, like Rice Krispies. And if the youngsters are very young, you know Rice Krispies are so digestible, they won't keep anyone up past bedtime.

I've just given you a few hints to help you save your time and trouble these busy spring days... and still give your family the food nourishment they need. If you have any suggestions, or questions, I'd love to hear from you. Write me, care of Kellogg's, Room 1202, 80 Richmond St., W., Toronto 1.

Seven sure ways to save time, work, fuel!

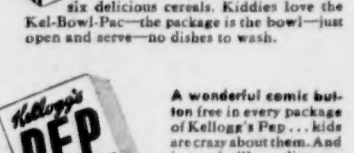

Your children will want All-Wheat because they like the taste, and because it's fun to collect the picture cards from every package. All-Wheat is whole wheat in its most delicious form. Contains the vital wheat germ too!

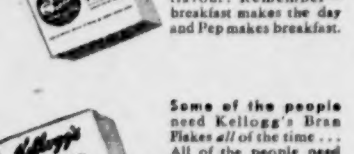

Krumbles are different... no need to have the "same old thing" for breakfast every morning. Krumbles are Canadian whole wheat in a new form, shredded, curled, crisped. Even the flavor is different. Concentrated for extra nutrition.

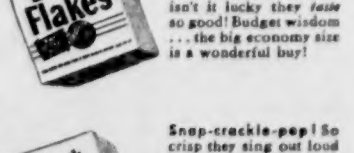

Now give everyone his favourite... Kellogg's Bran Flakes. Contains ten generous packages of six delicious cereals. Kiddies love the Kel-Bowl-Pac—the package is the bowl—just open and serve—no dishes to wash.

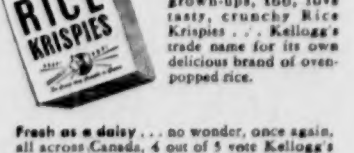

A wonderful comic button free in every package of Kellogg's PEP... kids are crazy about them. And just wait till you discover PEP's tasty, wake-up flavour! Remember—breakfast makes the day and PEP makes breakfast.

Some of the people need Kellogg's Bran Flakes all of the time... All of the people need Kellogg's Bran Flakes some of the time... so isn't it lucky they have so good! Budget wisdom... the big economy size is a wonderful buy!

Snap-crackle-pop! So crisp they sing out loud when you pour on milk or cream... kiddies and grown-ups, too, love tasty, crunchy Rice Krispies... Kellogg's trade name for its own delicious brand of oven-popped rice.

Fresh as a daisy... no wonder, once again, all across Canada, 4 out of 5 vote Kellogg's Bran Flakes first for flavour. You will, too, when you taste these fresh golden flakes with the crisp sweetness so extra good with fresh or preserved fruit!

Today—even more than before one of Canada's really vital foods!

The grains are great food... high in vital food energy and body-building content. Kellogg's, through skillful and exclusive processes, have retained the rich goodness of whole grains in delicious ready-to-

eat cereals. Everyone, farmer and consumer alike, benefits from the ability of Kellogg's to make the grains... great foods... into truly delicious foods that help boost the consumption of another great Canadian food... milk!

...the greatest name in cereals!

Moncton Hawks Beaten 6-3

Hamilton Takes Lead In East Semi-Final

HAMILTON, April 10 —(CP)— Hamilton Tigers last night defeated Moncton Hawks 6-3 in the opener of their best-of-five eastern semi-final series leading to the Allan Cup. The rest of the series will be played at Toronto.

The first period was scoreless as the Tigers, champions of all Ontario, and the Hawks, Maritime champs, cautiously felt each other out. In the second period however Tigers rang up a 4-0 lead.

Swat Mason accounted for three of the Hamilton goals, Doug Tunstons got two and Clarence Shillington the sixth.

Bell, Whetlock and Demchuk were the Moncton goal-getters.

Hugh McDonald, diminutive Moncton goalie, turned in a superb performance, letter-perfect all the way, saving several sure shots after his defence had been beaten.

Bill Sherry was a stalwart on the Tigers' defence, breaking up several Moncton plays when they looked dangerous.

MONCTON HAWKS — McDonald; Fraser, Poirer; Dowling; Trainor; McManus, Subst; Bantarche; Charlton, Demchuk, Leadbetter, Bell, Whetlock, Amew.

HAMILTON TIGERS — Childs; Laurent, Sherry; Shillington; Conick; Rumble, Subst; Dinning, Peer, Liscombe, Mason, A. Conick, Moccinovich, Cadieux.

Referee—Leo Murray, Sibby Mundy, Montreal.

FIRST PERIOD: Scoring—None. Penalties—Laurent, 10; Sherry, 15.

SECOND PERIOD: Scoring—Hamilton, 4; Moncton, 0. Penalties—Hamilton, 10; Moncton, 15.

THIRD PERIOD: Scoring—Hamilton, 2; Moncton, 3. Penalties—Hamilton, 10; Moncton, 15.

Lippy's Suspension Checks Hectic Career

By Whitney Martin

NEW YORK, April 10 —(AP)— The one-year suspension of Manager Leo Durocher of Brooklyn Dodgers brings to a temporary check one of the most hectic careers in baseball, a career highlighted by great triumphs and bitter disappointments, by brawls and arguments and fines and court actions.

From the moment he stepped foot on a diamond as a pro in 1925, to receive a brief tryout with the Yankees that year, the gregarious, aggressive, fiery Lippy never has remained out of the spotlight for any prolonged period. Since his appointment as manager of the Brooklyn Club by Larry MacPhail in January, 1939, his name has been almost constantly in the sports headlines.

A REMARKABLE shortstop but known as the "All-America out" at the plate, Durocher's career carried him from Hartford to the Yankees to Atlanta to St. Paul, back to the Yankees, then to Cincinnati and the Cardinals, and finally to the Dodgers.

Always cocky, assertive, loud and truculent, his association with MacPhail was unique. Both are outspoken, with temperaments that were bound to clash, but when it came to a showdown they stuck together, and incidentally brought to Brooklyn a National League pennant in 1941, the first in 21 years.

Lippy—the nickname was pinned on Durocher during his first training trip with the Yankees—as Dodger pilot became exhibit "A" in the love of umpire balling. A quick check shows his fines totalled at least \$1,000 during his career as Dodger manager.

DURING this hectic Brooklyn career the club had changed hands, the scholarly, sedate Branch Rickey taking over the presidency as MacPhail left to cast his lot with the Yankees.

There was much speculation as to how the fiery, boisterous pilot would get along with the subdued and business-like Rickey, but Rickey stuck by the manager—he had inherited from the MacPhail regime, and last year was rewarded with a team that finished the regular season in a tie with the Cardinals, losing out in the playoffs.

Durocher's troubles in California last winter failed to shake the faith of Rickey, who chose to overlook Leo's difficulties involving his marriage to Laraine Day, a motion picture actress, and the consequent disturbing publicity. Leo was named manager for this year at a salary reported to be tops in managerial ranks.

The deflation of character charge brought before Commissioner A. B. Chandler by Mac-

Phail apparently was the one straw too many heaped on the troubled man whose woes had been piling up rapidly during the last few months.

PUBLISH ARTICLE "DUROCHER SAYS" Here with is the complete article part of which was quoted in the decision of Commissioner Chandler which was one of the points at issue in baseball's big controversy. Reprinting is by permission of the Brooklyn Daily Eagle, which printed the article under the title of "Durocher Says" in its March 3, 1947, issue.

Caracas, Venezuela, March 3 —This is a declaration of war. I want to beat the Yankees as badly as I do any team in the National League. And this is certainly saying plenty. I want to wallop them Yanks because of MacPhail and Dreesen. John Corriden might be included in that group by some, but he is just a nice old guy nobody can get mad at. I want to beat the Yankees because MacPhail knows in his heart that I love Brooklyn, always want to manage there and regard Branch Rickey as my father.

HE TRIED TO DRIVE a wedge between myself and all these things I hold dear. When MacPhail found I couldn't be induced to manage his Yankees for any of his inducements, he resolved to help me, and to make my life as hard as possible for me. He has added his blow-hard voice to the criticism which I have been catching lately, trying to make it into a gale.

But surely people must recognize that it is the same old MacPhail. About Dreesen, I cannot help but feel bitterly. He was a valuable man. Yes, but he got in Brooklyn a lot of kindness and compensations which he will never get in Yankee Stadium. He must find that out for himself, of course, and the learning of it may be a hard lesson. He was very close to me for years, and he cannot deny that he had agreed to Brooklyn terms for two more years.

WHEN HE DECIDED to break his word, he never gave me the courtesy of a phone call. This from Dreesen who asked me to go to bat for him with Rickey on innumerable occasions. One thing should be remembered: Dreesen's only out, as far as his Brooklyn contract was concerned, was that he could sign to manage a major league club elsewhere.

Has MacPhail promised Charlie this? What does he mean to Bucky Harris? Be sure I will ask these questions when we meet in Caracas tomorrow. I will shoot Hatten at the Yanks tomorrow, and Higbee, and Gregg and Lombardi, the very best I have. These nine games—three here, three in Cuba and three in Brooklyn—may give me a little line on the type of ball club MacPhail and Rickey are going to steer through 1947. (Ed's note: The Yanks won three of the five Caribbean games and a sixth was cancelled.) Personally, I think the Yankees are going to have plenty of trouble and I hope it starts right here tomorrow.

Referees Refuse "Risk Our Necks"

HONG KONG, April 10 (Reuters) —Four referees have resigned from the football association here because they refuse to "risk our necks" in "dangerous" soccer games in which they have been mobbed and stoned by spectators stirred up by misrepresentative Chinese press reports.

More referees—all British associations—may resign, football association authorities fear, if the unrest continues.

Personal danger from irate spectators is only part of the argument.

The games involve big money and one Chinese millionaire is reported to have lost more than \$10,000 when his team was defeated. Referees argue that while they are unpaid, several teams are owned, financed, clothed and fed by wealthy Chinese who are reported to be prepared to pay any money to bring their teams up to scratch.

The sport is not always played along the approved fair lines, the referees claim.

ST. MICHAEL'S ACE LINE: Here is one of the best young forward lines in Canadian junior hockey and which last night accounted for nine goals as the Toronto collegians handed Montreal junior Canadiens a 21-0 defeat, the worst shellacking in Memorial Cup playoff history. From the left are: Fleming Mackell, who tallied six times and

made plays for two others; Eddie Sandford,

one goal and three assists and Les Costello,

who contributed two counters and three as-

sists. The St. Mike's sextet will now meet

the winner of the Brandon-Moose Jaw west-

ern final for the coveted Memorial Cup and

junior hockey championship of Canada.

Along the Fairways

with Bert Green

Edmonton golfers can look forward to the best season in the city's history, providing the weatherman is in a fairly congenial mood.

Fairways and greens got away to a flying start with ample moisture from the unusually heavy snowfall, and reports indicate that there has been very little snow-mould this spring. The majority of the courses took special precautions last fall, due to the heavy winter kill damage last spring, and had their greens treated with a special chemical.

THE GOLF BALL and club situation, which was a headache to all players during the war years, has been remedied to a great extent and the courses should be in the best condition ever. New equipment has been acquired for both fairways and greens and more workmen are expected to be available.

A few minor changes will be made at some of the clubs. The Prince Rupert has cut out a clearing to the right of the first tee. Manager Johnny Altken reported that the pro shop will be moved closer to the starting spot. The greens are in excellent shape and have been in use since the start of the season.

TWO NEW MOVERS will be in operation at the Municipal course and minor changes will be made on holes 16 and 7. Bert Gee, professional, announced. Greenskeeper Percy Earle reported that the greens were in wonderful shape and would be in use early this year. The temporary greens are also in good condition.

Prospects are brighter this year than they have been since the organization of the new club, Percy Daigle of the Country Club stated. A power mower for the greens and fairway mowers have been purchased, along with 1,000 feet of hose.

PEM WOOD, manager of the Highlands, is having his troubles, but he isn't losing much sleep over them. Franksters, or just out and over thieves, walked off with a couple of mats from the tees and practical jokers filled three of the cups with sod and placed the pins back.

The club has a new five-gang mower and two additional mowers will arrive in a few days. Considerable improvements have been

Replacement for Duchak

Joe Fisher to Join Calgary Stampede

CALGARY, April 10 —(CP)— The line of Bunny Dame, Doug Cairns and Joe Fisher that was a big factor in winning the Allan Cup for Calgary Stampede a year ago will be re-united for the remainder of the 1947 playoffs if it was indicated last night as the cup defenders were granted a replacement for Dave Duchak, out with an injured wrist for several games.

Fisher, who played with Lethbridge Maple Leafs this season, will be brought back as the replacement, Stampede said.

GRANTING OF THE replacement following a mail vote of officials of the Canadian Amateur Hockey Association was announced last night by Harold Brandreth, president of the CAHA's Alberta branch.

Stampede also indicated Wednesday that Tony Desmarais, in hospital with an infected elbow, had been discharged and might be used sparingly Thursday night. Desmarais, star of Stampede final game with Kimberley, has worked with Cairns and Dame on the team's second forward line.

World Record Set For Seven Furlongs

HALLANDALE, Fla., April 10 —(AP)—A world record for the mile and seven furlongs was set Tuesday at Gulfstream Park by Pharo, a five-year-old gelding owned by B. D. Rowley. Winning his second straight year, Pharo was timed in 3:13.45, clipping 1-5 second off the standard set by Bold Courtier at Agua Caliente Aug. 8, 1937.

Pharo, carried 110 pounds, including jockey Enrique Gonzalez. Bold Courtier, a four-year-old at the time, was under an impost of 116 when he made his record run.

Wise Shot was second in the endurance test for four-year-olds and upward, while Spanqua took the show award. The winner paid \$150.

Men Who Get Up Nights Often Lose Their Pep

you have to get up at 5 or 6 more times a night, your first is broken and it's no wonder you feel old and run-down before your time. So if you get up nights or suffer from Bladder Weakness, Painful Passages, Backache, Leg Pains, Nervousness, Rheumatic Pains, Circles Under Eyes, or Swollen Ankles, due to Kidney and Bladder Trouble, you should try Gylax. Usually, the very first dose of Gylax goes right to work helping the kidneys flush out excess acids and wastes which may have caused your trouble. To prove what Gylax may do to bring you joyous help from the pains and distress of Kidney and Bladder troubles, get Gylax from your druggist and give it a fair trial with the full understanding that if you are not satisfied for any reason, you get your money back up return of empty package.

Fastball Meeting

All teams planning on entering teams in the Edmonton and District Fastball Association should have representatives at the organization meeting which will be held on Sunday, April 13, in the Coronet Hotel clubroom at 2 p.m.

St. Mike's Go Wild To Score 21-0 Win

Oust Canadiens Three Straight In East Final

TORONTO, April 10 —(CP)— Toronto St. Michael's Majors overwhelmed Montreal Canadiens with a record score of 21-0 last night to win the eastern junior final in three straight victories of a best-of-five series.

Fleming Mackell scored six goals as the luckless Canadiens bowed out of contention and St. Michael's qualified to meet either Brandon Elks or Moose Jaw Canucks in the Memorial Cup final for the Canadian junior hockey championship.

BOBBY PAUL and Ed Harrison each collected four goals in the relentless attack on the injury-riddled Montrealers.

A crowd of 10,141 saw St. Michael's, eastern junior champs of last year also, run up a 5-0 lead in the first game and pile up a 15-0 count in the second, adding six more in the final.

THE CANADIENS dressed only 10 men for this third game, being without Bob Fryd, Dube Lepine and young Howie Morenz, all out with injuries. St. Michael's however were at full strength with Red Kelly back on his defensive post.

The 21-goal score is a record in the books of the Ontario Hockey Association.

MONTREAL CANADIENS — Scullari; Roche, Minoguel; Newton; Denny; Laplante, Subst; Orlando, Schultz, Trudeau, McManahan, McArde, Fildes, O'Shaughnessy.

TORONTO ST. MIKES — Harvey; Wolf, Paul, Sandford, Costello, Mackell, Subst; Paul, Hannigan, MacLellan, Harrison, Migay, Kelly, Winslow, Williams.

Referee—Hap Shoudice, Ottawa. Linesman—Ching McDonald, Ottawa.

FIRST PERIOD: 1—St. Michael's, Costello (Sandford) 1:32; 2—St. Michael's, Harrison (Hannigan) 4:31; 3—St. Michael's, Migay (Harrison, Kelly) 13:33; 4—St. Michael's, Sandford (Mackell) 15:43; 5—St. Michael's, Migay (Mackell) 17:37; penalties—Paul, Paul.

SECOND PERIOD: 6—St. Michael's, Mackell (Costello) 2:42; 7—St. Michael's, Migay (Hannigan, Harrison) 5:41; 8—St. Michael's, Paul (Paul) 8:28; 9—St. Michael's, Costello (Paul) 7:33; 10—St. Michael's, Mackell (Costello) 13:37; 11—St. Michael's, Paul (Sandford) 14:30; 12—St. Michael's, Harrison (Hannigan, Migay) 17:21; 13—St. Michael's, Harrison (Migay) 17:34; penalties—none.

THIRD PERIOD: 14—St. Michael's, Mackell (Paul) 3:54; 15—St. Michael's, Mackell (Paul) 5:28; 16—St. Michael's, Migay (Hannigan) 12:31; 17—St. Michael's, Mackell (Mackell) 16:17; 18—St. Michael's, Mackell (Paul) 16:30; 19—St. Michael's, Paul (Sandford) 18:33; penalty—Orlando.

In a letter to John Ducey written in reply to an invitation to return here this year, Pete advises he is shooting for a place with the Tacoma club and will be remaining in that city if he makes the team. However, he added he'd "rather play up there (Edmonton) than in any C or D class league."

A SMART BALL HANDLER and effective hitter, Tedeschi was signed by the Chicago Cubs at the conclusion of the league season here last fall. Pete should go a considerable distance in ball and there accordingly seems little likelihood of his failing to make the Tacoma team.

Pete has volunteered to do what he can in the way of scouting of players for Edmonton clubs.

Hewitson Succeeds J. P. Fitzgerald

TORONTO, April 10 (CP)—The Evening Telegram announced in its sport page Wednesday the appointment of R. W. (Bobby) Hewitson as sports editor. He succeeds J. P. Fitzgerald who died last Wednesday after 47 years in the position.

A native of Toronto, Hewitson has been a member of the Telegram sports staff for 30 years.

Chet Laabs Sold

ST. LOUIS, April 10 (AP)—Catcher Chet Laabs was sold to the Philadelphia Athletics and infielder Mark Christian went to the Washington Senators Wednesday, both for the \$10,000 waiver price, the St. Louis Browns announced.

Leo's Suspension Is Severe Penalty

NEW YORK, April 10 (AP)—Suspension of manager Leo Durocher of Brooklyn Dodgers for the entire 1947 season is one of the severest penalties ever handed out in organized baseball.

In 1921 Babe Ruth and Bob Meusel were suspended for 30 days at the start of the following campaign and fined their entire share of the world series receipts for defying an order by Commissioner K. M. Landis against engaging in post-season barn-storming.

RUTH ALSO DREW a \$5,000 fine from manager Miller Huggins of the Yankees for failure to keep in condition late in the 1925 season.

Ben Chapman, now manager of the Phillies, was banned from minor league baseball for the entire 1942 season by W. G. Branch, National Association president, as a result of an attack on umpires during a Piedmont league playoff season.

Last year a number of players who jumped to the Mexican league among them Max Lanier and Lou Klein of the Cardinals and Mickey Owen of the Dodgers, were barred from organized baseball for five years as a penalty for contract jumping.

BULLETIN

Bill Astle President Glenora Tennis Club

Bill Astle was named president of the tennis section of the Glenora Club at an organization meeting held in the club rooms on Wednesday night. More than 40 potential players attended.

Miss "Sandy" Macdonald was elected vice-president and Miss Dorothy Moss secretary. Named to the executive were Dr. Owen Gray, Ed. Wells, Miss Dorothy Moss, Miss Janet Matheson and Keith Elcombe.

COMMITTEE members were not named last night, but will be announced in a few days. In the meantime President Bill Astle is acting as chairman of the membership committee and prospective members may contact him at phone 81546, or get in touch with any member of the executive.

Steps are being taken at once to re-surface the club courts and a successful season is being looked forward to. The club rooms recently were re-decorated.

OFFICIAL OPENING day will be set just as soon as possible and a round-robin will be the first competition.

"Wrong, wrong, 100 per cent wrong," declared Maguiness.

ONE FORTHRIGHT anti-Durocher statement came from Sidney Ascher, president of the society for the prevention of disparaging remarks about Brooklyn.

Seeing no slight to Brooklyn's tender feelings in the suspension, Ascher said:

"The doxy fringe of Brooklyn may not like it but I think it is a good thing. Let's hope it may mean a long-needed house-cleaning among the Dodgers."

Dick Irvin Expects Tough Battle Tonight

By Syd Thomas

MONTREAL, April 10 (CP)—There's just one prediction coach Happy Day of Toronto Maple Leafs felt safe in making Wednesday—his team should play a better game Thursday night than they did Tuesday night when Montreal Canadiens whipped them 6-0 in the opener of the best-of-seven Stanley Cup final.

"At least they couldn't play much worse," he grunted dolefully yesterday as he rested up for tonight's masterminding in the vital second game.

LEAFS WILL BE without veteran Nick Metz, out for the season after he suffered a rib separation in the second period Tuesday night. Metz will be replaced by Norman (Bud) Poile, who will centre Gaye Stewart and Don Metz.

In Canadiens camp, coach Dick Irvin wasn't making any wild predictions either.

"Leafs will be better tomorrow," he observed safely, "in fact they're apt to be hot. Look how they came back after Detroit walloped them 9-1 in the semi-final."

"We can't let Leafs win on our ice," he continued cautiously as he sounded his battle cry of "win for Lach."

ELMER LACH WAS lost to Canadiens after his skull was fractured in a game with Leafs, and since then Irvin has been of the firm belief that the "unseen hand" has had a part in "evening things up."

But getting back to the not-so-happy day, the Leafs coach intimated he might bring up more players from Pittsburgh of the American Hockey League—he couldn't name them offhand because "it all depends on just what we need"—if Hornets can eliminate Hershey Bears tonight in their playoff series.

Dick Irvin will stand pat on his lineup.

S. Side Legion Soccer Workout

South Side Legion soccer club will hold a practice at the South Side Athletic Park on Sunday morning next (April 13) starting at 10:30.

Those wishing to try out for the club are asked to report at the Legion Hut (104 street - Whyte avenue) prior to starting time.

Ringmen To Use Curling Rink

Edmonton sports followers will head for the Alberta Avenue Curling Club this summer, but their interest won't be in the roaring game.

They will be going to see either wrestling, or boxing. The city's boxing and wrestling officials got their heads together last night after making a deal with the curling club, and decided to co-operate in providing bleachers which will accommodate 3,000 fans.

THE RINGMEN decided to search for new quarters after Tuesday night's wrestling show at the Memorial Hall. At that event ticket-holders were left standing as rush-seat customers crowded into every available space and a number of fans were unable to gain entrance due to the overflow.

The rink, which is situated at 117th avenue and 95 street, will be dried out immediately and work will commence on the bleachers this week.

TOMMY TASKER and Cecil "Tiger" Goldstick represented the wrestlers, while Mickey McGuire, Barney O'Connor, George Bogie and Andy Aldi represented the boxers. They announced that the next wrestling card, which will be held at the new "arena" will be started April 17, with Al "Lord" Mills meeting Jack "Killer" Dillon in the feature. George Zaharais, noted matman, will also appear on the program.

The next boxing card is slated for April 23, featuring Johnny Kos and Jack Berry.

Eastwood Tennis

The Eastwood Tennis Club will hold their annual meeting next Sunday, April 13th, at 2:30 p.m., in the Eastwood Community Hall. A special invitation is extended to prospective members. As plans for the coming season will be discussed, a large attendance is expected.

Woodcock May Trade Punches With Louis

NEW YORK, April 10 (AP)—The quest for a challenger for Joe Louis' heavyweight title assumed an international aspect Wednesday. Match-maker Nat Rogers has gone to England to stalk the only foe the champion is interested in meeting for his scheduled June bout in Yankee Stadium.

Objective of Mike Jacob's emissary is to sign empire title-holder Bruce Woodcock, at the moment playing hard to get. And although the Briton is far from ready, the word has gone out that Woodcock is the man most likely to be on hand when Joe comes out for the 24th defence of his title.

MEANWHILE, THE line of would-be challengers is growing almost daily. To the latest offer—a \$200,000 guarantee for a 10-round bout in Salt Lake City with Melio Bettina—Joe replied with words that appear destined to become almost routine in the next few months: "Personally I don't think I'd go for such a proposition."

ROGERS SAID AS he left here yesterday he hoped to sign Woodcock after his April 15 bout with Joe Bakst of Kulpmont, Pa.

If Woodcock comes through decisively there seemed to be little doubt that he could be persuaded to make a second Atlantic crossing.

Praise Scorers In National League

MONTREAL, April 10 (CP)—Official scorers, rarely in the news except when targets for criticism, received a pat on the back from the National Hockey League Wednesday for a job well done in the 1946-47 season.

Answering with statistics occasional criticism that scorers favor the home team, the league revealed in a press release that the 1946-47 season "was by far the most unerring and substantially correct in the league's history."

"THE OVERALL average of assists to goals scored for the home team in the six cities was 1.32, while the overall average for the visiting team was 1.20," the league said. "This is a difference of exactly 10 per cent in favor of the home team."

"During the seasons 1944-45 and 1945-46 the difference between the home team and the visiting team was in some cases as high as 40 per cent in favor of the home team."

When President Clarence Campbell took office last year he set up a chart showing the ratio of goals scored for both the home and visiting teams in the six NHL cities. He kept a close check on the chart throughout the season to ensure that scorers were applying the same standard in making awards to the home and visiting clubs.

IN ADDITION to defending its scorers, the league spoke up for the 1946-47 scoring champion, Max Bentley of Chicago, whose 29 goals and 43 assists for 72 points gave him a point advantage over Maurice (Rocket) Richard of Montreal who scored 45 goals and assisted on 25 others.

"Bentley's scoring prowess is even more remarkable when it is considered that he amassed all his points without ever having the opportunity to score against the Black Hawks' defence," said the release. Hawks had 274 goals scored against them.

Junior Football Meeting Tonight

The co-ordinating committee of the four athletic clubs (Canadian, Edmonton, Maple Leaf and South Side) will hold a meeting at the School Board offices, Civic Block, at 8 o'clock tonight to discuss junior rugby football.

All interested in junior football are invited to attend.

Playoffs Tonight

ALLAN CUP

EAST—Eastern semi-final—Montreal Royals at Sherbrooke St. Francis, first of best-of-three game series.

WEST—Western final—Winnipeg Flyers at Calgary Stampede, first game of best-of-five series.

MEMORIAL CUP

EAST—None.

WEST—Western final—Brandon Elks vs Moose Jaw Canucks at Regina, seventh game of best-of-seven series. Brandon leads 3-2 with one game tied.

Softball Practice

Edmonton Morton ladies' softball team will hold a practice at Eastwood gym Friday night at 8 o'clock. All of last year's players, and any newcomers who may be interested, are asked to attend.

*Optional at extra cost

Oldsmobile Series "76" (or "78") Club Sedan

Oldsmobile Series "66" (or "68") 4-Door Sedan

The 1947 Oldsmobile is smart in more ways than one. Smart styling... certainly. But it's a smart investment, too. An investment in the dependability and quality for which the Oldsmobile name is famous. An investment in the riding comfort of Quadri-Coil Springing and 4-Way Stabilization. An investment in the matchless driving ease of GM Hydra-Matic Drive*—the only drive that shifts gears automatically and eliminates the clutch pedal entirely. Choose the low-priced Oldsmobile "66" (either a six or an eight)—or the popular-priced "70" (also with a choice of engines)—or the luxurious "78" Custom Cruiser. Whichever it is... you'll be making a smart choice!

The demand for new cars is still so great that it may be some time before you take the wheel of your new Oldsmobile. Make sure your present car keeps rolling. The better its condition, the safer you are and the higher its potential trade-in value.

Purchasers

Two or three times a week I go to my favorite shoe-shine stand and gloomily contemplate the passing scene. The shoe-shiners have a radio that plays lively western tunes and they slap your brogues with energy and good cheer, but the allee of life outside the door is harsh as a Russian novel.

The faces of the hurrying people are haggard with worry, bleak with the burden of personal griefs or just blank with the dullness of living. A lone girl passing with a proud and secret smile is refreshing as a breeze.

The incongruous thing about this view is the backdrop. Directly across from the shoe-shine stand is a long book stall, fiercely bright with hundreds of magazines. The titles of these magazines shout gaily of true love experiences on the western plains, exciting romance, glamor in Hollywood, thrilling adventure.

Many of the grey people halt before this lurid display, lift their solemn eyes, buy, and hurry on. I walk back to the office with dazling shoes and furrowed brow.

Geezers

How long is the newspaper reading public going to put up with stories about ancient men and women? This is one of the most challenging questions of the day.

Almost every newspaper runs at least three or four stories a week about people who have somehow got to be over 100 years of age. These people invariably fall into two classes.

The first is the one who owes it all to clean living. He takes 40-mile hikes, before his breakfast of strained carrot juice and beet tops, sleeps outdoors (in a snowbank, if available) and acorns all tobacco and liquor. The other type has got over the 100-mark by a different route. He smokes 18 cigars a day, drinks a quart of Irish whiskey per hour, and raps around with "aer widows."

To one respect, however, they are all the same. They all have the teeth, their hearing, and great plans. Some say they're looking about for a wife. Some intend to climb the Matterhorn. Some hope to swim the English Channel. Personally, I am dying to read an interview with a centenarian who has lost almost all his faculties, lives on warm gruel, feels terrible most of the time and just wishes people would leave him alone.

Religious Council Names Delegates

The Religious Education Council of Alberta held an executive meeting in the YMCA last night, with Harold Fazakerley of Edmonton in the chair.

The Rev. J. C. Morgan, general secretary, opened the meeting with a short devotional period. Mr. Fazakerley, Mr. Morgan, and Miss Margaret Mann, associate secretary, were named as delegates to the annual meeting of the newly organized Christian educational department of the Canadian Council of Churches, to be held in Toronto, April 19 to May 2.

A delegate from the Alberta children's work board was chosen to attend a conference to be held in Des Moines, Iowa, this summer.

BANK CLEARINGS
Bank clearings through the Edmonton Clearing House for the week ended April 10, amounted to \$9,740,111.38 as compared with \$10,228,859.79 for the corresponding period last year.

Dr. H.E. Smith Is President

Teachers Association Elects New Officers

Dr. H. E. Smith, Edmonton, is the new president of the Alberta Teachers Association. He was appointed by members of the newly-elected executive at the conclusion of the 30th annual convention Wednesday afternoon, in the Macdonald hotel.

OTHER MEMBERS elected to the new executive were: vice-president, E. T. Wiggins, Didsbury; south-eastern Alberta representative, J. R. Johnston, Medicine Hat; south-western Alberta, Marion Holman, Diamond City; Calgary district, D. Norton, Calgary; central western Alberta, A. R. Patrick, Lacombe; central eastern, A. O. Ashbough, Rivercourse; Edmonton district, Miss Marian Gimby, Edmonton; north-eastern, J. W. Kolotyluk, Willingdon; north-western Alberta, A. W. Toews, Grande Prairie. The vote was one of the heaviest for a number of years, said E. C. Ansley who will continue in the capacity of general secretary of the association.

THE EXECUTIVE has lost a lot of good men, but it has also gained a lot of good men. Dr. Smith said in a brief speech after his appointment of president, in referring to changes in the executive. One of the big tasks of this year will be pensions. If a good pension plan could be passed a number of the organizations' problems would automatically be solved. In a resolution moved by Miss J. W. Maxwell, Calgary, preceding the installation of the new executives, it was approved that the government of Alberta be strongly urged by the ATA to request of the Dominion government, that the amount incurred by teachers accepting appointments from the department of education in marking examination papers, should be deductible from taxable income.

STEPS ARE to be taken as soon as possible to build a permanent ATA building on the South Side, as present headquarters provide insufficient accommodation.

Defence Chief Suggests Liberals Re-State Policy

The Liberal government in Ottawa during the war had found it necessary to enact measures contrary to the spirit of Liberalism, Hon. Brooke Claxton, minister of national defence, told a dinner meeting of more than 50 Liberals of Edmonton and district at the Club Roosevelt, Wednesday night.

HE URGED that regional, provincial and national conferences of Liberals be held to re-state Liberal policies in terms of modern application.

He hoped that young Liberals, spelling the name with both a large and a small "L" would get together to aid in forming a national policy.

His visit to the Paris Peace conference, which he had attended with Prime Minister Mackenzie King last year, was recalled, and he spoke of his visits to the battlefields of Normandy, and Dieppe.

CANADA WAS LIKED and respected by the nations of all the world, he said, and that liking and respect arose through the support given the Canadian government by the people of the country during and since the war.

"During those years we have been fortunate to have been led by the greatest Canadian of them

Expect Considerable Work This Year

Northwestern Utilities Planning \$5,000,000 Improvement Program

Northwestern Utilities Limited, during 1946, spent \$2,432,857.79 on capital account of which \$1,336,410.24 was expended in the laying of the six and eight inch line to the outskirts of Red Deer, and on the distribution systems at Camrose, Wetaskiwin, Ponoka, Lacombe, and in some preliminary work on the distribution system in Red Deer. It was revealed in the annual report of the company released Thursday.

In the next five years improvements involving \$5,000,000 are planned, of which \$1,686,051 will be spent this year, if necessary 16-inch pipe is available.

IN ADDITION to the extension of services to southern towns and cities, the company, during 1946, drilled five wells in the Viking, Kinsella field, and added 12.7 miles to the third and 16 inch main transmission line from that field to Edmonton distribution system.

It was pointed out in the report that between the years 1940 and 1946, the company has expended on capital account \$5,011,044, and that all work was done by the company's organization, and not by contract.

IN THE ELIMINATION of the contractor's profit, the report states, a very substantial saving has been effected, which is reflected in the rate base, and the price paid by the ultimate consumer for natural gas.

"The situation in the Viking-Kinsella field is satisfactory."

Thirty-eight wells, with an open flow of 444.71 million cubic feet per day are connected to the system. It is proposed during the current year to connect five wells belonging to other interests, and also to drill one or more wells on company leases," the report states.

The company, in 1946 with the approval of the Board of Public Utility Commissioners and the City of Edmonton, again reduced the general rates in the older part of the system. This meant a saving to Edmonton customers and to consumers in towns between Edmonton and the field of approximately \$260,000 annually.

The report points out that since 1934 the average unit cost to the customer has fallen by 28.91 per cent for each 1,000 cubic feet sold, and it is believed that the rates now charged for natural gas by the company are amongst the lowest on the continent.

City Will Assist Parley Delegate

The finance committee of city council Wednesday agreed to recommend to city council that a grant of \$300 be made to Miss Margaret Clark, Edmonton, who will be one of five representatives of the YMCA at the World Christian Youth Conference to be held in Oslo, Norway, this summer.

Les Wedman, Edmonton Journal reporter, has been chosen the Alberta and British Columbia representative for the YMCA and it is expected that a request for assistance toward his expenses will be made to city council on Monday night next.

Fewer Veterans Ask Out-of-Work Aid

Number of war veterans receiving out-of-work benefits here continues to show a steady and encouraging decrease, J. W. Proctor, district administrator for the department of veterans affairs, stated Thursday.

THERE WERE 753 receiving out-of-work benefits as of Wednesday of this week, a decrease of 59 from the number listed last week.

At the same date last year there were 2,283 on out-of-work benefits.

BUSINESS AND professional loans made to veterans from the Edmonton office now totals \$232,312, number of loans being 124. Of these 72 are from veterans in the country and 52 city residents.

400 Delegates To Attend Parley

More than 400 delegates are expected to attend the annual convention of the Canadian Legion Provincial Command to be held in Edmonton on June 8, 9, 10, 11, in the Memorial Hall here, Executive Secretary W. J. Williams, M.L.A., said Thursday.

Delegates to represent Edmonton will be nominated at the next general monthly meeting of Edmonton Montgomery Branch No. 24 to be held in the Memorial Hall on Sunday, April 20.

Harper Prowse, M.L.A., is chairman of the convention committee for Branch No. 24. It is expected that 25 representatives will be chosen from the main Edmonton branch.

Army Legislator Joins Liberals

Announcement that he was linking his political future with that of the Liberal party was made Wednesday night by Harper Prowse, M.L.A., army representative in the Legislature at a meeting of the Edmonton Women's Liberal Association held at the home of Mrs. W. A. Lamb, president.

THE POLITICAL situation had arrived at the point, Mr. Prowse said, where it was impossible for him to remain neutral any longer, though he intended to continue to give service to the veterans in his capacity as army representative, just as he had done in the past.

He had made friends and sought advice from all political groups in the past, he said, adding that he had been "forced to accept the conclusion that one philosophy was more desirable than another, one party more acceptable than any other."

"THAT IS EXACTLY" what has happened and my observations, and my thinking have convinced me that the Liberal party offers Canada not only the most acceptable program and leadership, but the only program and leadership which will permit us to achieve the kind of a future we all want," Mr. Prowse said.

Canada's war effort was unsurpassed by any other nation "in spite of the criticism we have heard and which I have helped to make," Mr. Prowse said. The country had survived the storms of reconversion better than any other nation, and had better prospects for achieving in the future both security and freedom.

"Under these circumstances one could have to be especially stubborn not to give credit to the present Liberal administration and its leader, William Lyon Mackenzie King," he added.

China Denies U.S. Military Assistance

NANKING, April 10.—(AP)—China last night officially denied that American aid since V-J Day had taken the form of military assistance or had infringed on her sovereignty. A spokesman for the ministry of information, tak-

ing official cognizance of the charges made in a TASS (Russian) News agency dispatch published in Moscow's Pravda Monday, replied heatedly: "That article is so far from the truth that without undertaking to answer all of its misstatements, I deem it sufficient to point out some of the most glaring untruths."

BUYS AND WHYS BY Barbara Brent

A weekly advertising and information service for today's woman

If you've noticed that your baby—usually a little ray-of-sunshine, looks mighty like a thundercloud at mealtime—chances are he's bored with his food and it's high time to switch to HEINZ Baby Foods! For HEINZ Baby Foods look good enough to bring a happy, hungry gleam to baby's eyes and—YUM!—they taste delicious, too! Don't just take baby's word for it—taste for yourself any of the flavourful varieties of HEINZ baby Foods and you'll understand why baby gobbles them so gleefully! Ready-to-serve strained fruits and vegetables—for instance—delicious—and so easy to digest—vacuum sealed to retain vitamin content in a high degree. Try all of HEINZ Baby Foods—every one of them backed by the famous 75-year-old HEINZ reputation for quality! And for your free booklet—"Your Baby's Diet"—write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.

BE ASSURED OF DELICIOUS DESSERTS!

At the end of a perfect meal, you'll want something very special in the way of good taste for dessert—something to rate a delighted "Luscious!" from your public. If you crave the compliment of having plates passed back for more—serve desserts made with BENSON'S CORN STARCH—tasty puddings—cream-smooth custards and meringues to melt in your mouth! And speaking of meringue... 1 teaspoon of BENSON'S CORN STARCH added to 1 tbs. of sugar for each stiffly whipped egg white... will make a fluffier, smoother, more delicious meringue. In fact, you'll find so many ways to improve your menus with fine-textured BENSON'S—it makes smothery gravies and pie-fillings—that you'll call it a "must"! Like all good things much-in-demand, you'll want to buy it when you see it, for BENSON'S is a buy-word familiar to generations of satisfied Canadian homemakers. Yes, I know it's hard to find at present, but the supply is gradually increasing and soon there'll be enough for everyone!

BEAUTY TREATMENT FOR YOUR HOME!

Spring is here! In the bright sunshine your home would look well with a fresh coat of paint—and there's that annoying leak in the roof that must be fixed! But—money, money—who has the money! If this is the way you feel—if you and friend husband require money for home repairs and are in a position to repay without undue strain on your family budget—pay a visit to the manager or accountant of your nearest branch of the BANK OF MONTREAL. He'll tell you that home-makers are constantly receiving ready help through the bank's Personal Loan plan. And the low cost will surprise you—only 27 cents a month for each \$100 borrowed, when repaid in 12 monthly instalments. Truly a bank service for your convenience—think of it when you need money for home repairs.

NO MEAT BUT LOTS OF GRAVY!

Every woman knows, so this is just a reminder and not news to you, that there's nothing like rich, brown gravy to add appetite appeal to a meal. "True!" you may say, "but what of my meatless meals?" The answer to that is OXO. Any day you haven't meat, you can have a big dish of the brownest, most delicious gravy by making OXO Gravy... Melt 4 level tbs. of dripping, add 6 tbs. flour and brown, stirring constantly. Mix 2 OXO cubes or 2 tbs. fluid OXO in 2 cups of boiling water. Add this to your browned mixture, stir until smoothly blended; add salt and pepper and bring to a boil... Remember OXO is the goodness and flavour of prime, lean beef concentrated in cube or fluid form. Get some at your grocer's and see how many delicious and economical ways it will serve you. Keep it on your handiest kitchen shelf and be reminded that beefy OXO will cut your meat bills.

GIVE SPRING CLEANING THE BRUSH-OFF

Think for just a minute of all the brushes you use when you clean house... scrub, venetian blind, paint, banister or bench dusters, floor push brooms, radiator—well—a lot of brushes and wonder of wonder, dear! they come now with NYLON bristles! For you know that it's the bristles in your brushes that do the work—and that's why it is so important that your brushes have NYLON bristles... they're the best and most enduring for every job and easy to clean so that they look like new at the finish. Well, now, thanks to Canadian Industries Limited, makers of NYLON bristles in Canada, these wonderful new household utility brushes made with NYLON bristles by a number of experienced brush manufacturers are among the best of the brand new buy-words for homemakers. Do look for the words "NYLON BRISTLED" when you're buying brushes for long wear, usefulness, cleanliness, and yes—beauty!

U.S. Business Boom Setback Is Predicted

NEW YORK, April 10.—(AP)—Most economists who talk on the subject expect that the current business boom in the United States will have a set-back by mid-year. The period to follow can be a healthful readjustment, a recession or a depression. A recession could be mild or severe, brief or prolonged.

Long-Time Resident Of South Side Dies

George Henry Albert Langdon, 9807 82 avenue, well known South Side resident since 1913, died at his home Wednesday morning. He was 82 years old.

He was a retired car department employee of the Canadian Pacific Railway Company for 15 years.

He was born in Staffordshire, England and came here in 1913, taking up permanent residence on the South Side.

While in England, he was a member of the Red Lion Cycle Club and rode in many events. When the Westbroth Albion football team was formed, he was one of the original players.

IN EDMONTON He played for the Seona cricket team for many years. He attended the Holy Trinity Church.

He is survived by Mrs. Langdon, three sons, Daniel, in Birmingham, England, Leonard in Edmonton, Bernard, on the South Side, and three grandchildren.

A funeral service will be held at Holy Trinity Church on Friday afternoon.

The Rev. Canon W. M. Nainby will officiate, and burial will be in the Mount Pleasant Cemetery. Hainstock and Son are in charge of arrangements.

Protests Expected From Lumber Men

Protests were expected from timber dealers, and holders of timber leases, over announcement by the provincial government on Wednesday morning, that an upward revision in timber rates was to go into effect at once.

The general trend of the order indicates that timber rates will be raised from \$3 to \$4 a thousand feet.

It was disclosed in the provincial estimates tabled in the legislature during March, that the government anticipates an increase in revenue from timber rates, but this was not explained in the house at that time.

The new rates have been set by order-in-council as an amendment to existing timber regulations.

Deaths Wednesday

By The Canadian Press
TORONTO—Most Rev. Derwyn Trevor Owen, 70, archbishop of Toronto and primate of the Church of England in Canada.

OTTAWA—Eric Strangroom, 42, special assistant to the deputy minister of labor.

DUBLIN—Desmond Fitzgerald, former defence minister and minister of external affairs in the administration of William T. Cosgrave.

Chemical Group Elects Officers

The Chemical Institute of Canada, Edmonton section, held its final meeting of the 1946-47 session on Monday. The meeting was a ladies' night and took the form of a supper at the Club Roosevelt. About 40 members and guests attended.

The following officers were elected for the ensuing year: chairman, J. Oberholzer; vice-chairman, H. M. Pauling; recording secretary, M. J. Huston; corresponding secretary, J. Gregory; treasurer, C. Fehon; executive members, J. A. Taylor and R. G. Bentley.

The speaker of the evening was Prof. L. E. Gads of the faculty of applied science who presented a very interesting paper on "Life in Post War Berlin". Professor Gads was an interpreter for the British Command in Berlin and was thus able to give a very clear insight into the problems that were confronted.

The Taj Mahal in Agra is considered by experts to be the most beautiful building in the world.

Jury Trial May 28

"The Voice" in Court After Cafe Brawling

BEVERLY HILLS, Calif., April 10.—(AP)—Crooner Frank Sinatra surrendered in Beverly Hills justice court yesterday on a misdemeanor warrant charging battery, outgrowth of a fracas Tuesday night at Ciro's Restaurant.

HE WAS TAKEN immediately before Justice Bert Woodward, who had signed the warrant on complaint of Lee Mortimer, movie columnist for the New York Daily Mirror.

Sinatra pleaded innocent and demanded a jury trial, which the judge set for May 28. The crooner was released on \$500 bail.

Dr. Lloyd P. Tainter of West Hollywood Emergency Hospital diagnosed Mortimer's injuries as a swollen left cheek, swelling behind the left ear and bruises of the right wrist.

Mortimer, who went to a hospital for \$17.50 worth of X-rays, claimed that it took Sinatra's gang to do it. Although Frankie frequently appears around town accompanied by a husky entourage, the crooner emphatically denied Mortimer's assertion that he was knocked down and piled on by four men outside Ciro's Restaurant.

THE COLUMNIST has been here for five days on one of his periodic trips to the movie capital. Known, like Sinatra, as a little fellow who dislikes to be shoved around, Mortimer is just about a match for the crooner. They both are about five feet, eight inches tall; tip the scales at 140 or a little less.

Spring Field Work Starting in South

LETHBRIDGE, Alta., April 10 (CP)—Spring work is getting underway in Southern Alberta as the continued drying of the land, but expectations are that it will be another week or 10 days before operations can be extended to any considerable number of farms. One farmer in the nearby Coalhurst district started discing Tuesday and another in the Magrath district resumed threshing barley which has been in a stack since last fall. Farmers generally throughout Southern Alberta are getting their machinery in shape for seeding. This time last year a large acreage of wheat was seeded.

Smoke Bomb Explodes

A bomb exploded in the 109 street subway about 9:15 p.m. Tuesday causing much commotion and holding up traffic for about 15 minutes.

The fire department responded and found lofty columns of smoke pouring out of both ends of the tunnel. Firemen plunged in and found the cause of the trouble was a smoke bomb, which police said they believed was dropped by some prankster.

Heavy traffic on the street at the time was held up for about 15 minutes until the smoke had time to clear.

Non-Veterans May Obtain Land Leases

Applications from civilians for agricultural leases will be accepted by the government, Hon. N. E. Tanner, minister of lands and mines announced on Wednesday.

LEASES HAD been held exclusively for veterans, but changes adopted by the legislature during the last session have made these leases available to both veterans and non-veterans.

Under present regulations, the holder of a lease on agricultural lands may obtain title free of charge at the end of ten years, if he has lived up to the terms of the lease and paid his crop share.

AT THE END of five years, if his lease is on land of which 20 acres were cultivated when he assumed the lease, he may buy the land at its value as raw land as determined before he assumes the lease. Under these circumstances, he must have completed all the cultivation required under the ten-year term of the lease.

The land may be bought at a gradually decreasing price until at the end of the ten-year period, if all conditions are fulfilled he gets title, if he wishes, for nothing.

Forty Field Men Conferring Here

Forty field men, who represent the department of municipal affairs in local improvement districts throughout the province, are holding a conference, Wednesday and Thursday of this week. It is expected such conferences will be held annually.

The meeting was announced by Hon. C. E. Gerhart, minister of municipal affairs, who said that the program for the conference was designed to co-ordinate departmental work.

The field men represent the department in the districts, and do the tax collecting and assessing for all types of taxes imposed by the department on the districts.

The conference will give the visitors an opportunity to meet departmental heads. It was pointed out, and it was hoped to "improve the tone of the department and improve public relations in tax collecting."

All-Breed Show Concluded Here

The annual spring championship dog show was concluded Tuesday in the Prince of Wales Armory when the Edmonton Kennel Club sponsored an all-breed show.

SILVERMINE VAGABOND, an English setter owned by Davis Tuck, won the best in the show entry.

Doberman Pinscher, owned by C. W. Kelly, took the best Canadian bred dog in the show. Mrs. M. Orr, 214 Condell Block, won the door prize, of a cocker spaniel.

The best of breed in a few groups were as follows: Airdales—Montygate Murray, owned by Mrs. F. M. Hargreaves.

WELSH TERRIERS, Glendowers Llandaff, owned by W. R. Morris; Irish Terriers, Redwyre Bright of Tyrone, owned by Wilfred Hoy; Scottish Terriers, Mar-Jo Brigadier, owned by Mrs. G. Shillinglaw; Pekingesie Bernlee Chung Kee Wun, owned by Miss Bernice Brown; Pomeranians, Millesleigh Golden Pipe, owned by Mrs. C. Arno; English Bulldog, Rosell's Brit's Legacy, owned by Miss M. E. It's hard work to love a grouch...

Have you ever noticed how often the men with sunny dispositions seem to have "all the luck"? ... In love or in business? It would be odd if they didn't! It is hard work to love a grouch.

If you want to live life with a song in your heart, one thing you certainly must avoid is that "jumpy", irritable, depressed feeling which so often accompanies constipation.

There is a simple, pleasant precaution you can take. Eat Kellogg's All-Bran every day. Nearly one out of every two Canadian families now keep Kellogg's All-Bran on their pantry shelves. 64% of these families have been using it for over five years. No wonder we believe you will benefit from All-Bran. That is why we now make this extraordinary guarantee on every package:

DOUBLE YOUR MONEY BACK Guarantee

Eat an ounce of Kellogg's All-Bran every day. If after using just one package you do not agree that its continued use is a simple, pleasant, daily precaution to help you keep a note stating the address of your grocer and the price you paid. We will refund you not only what you paid—but DOUBLE your money back.

SAVE THIS guarantee as a reminder to get a package of Kellogg's All-Bran today. Kellogg Company of Canada, Ltd., London, Ontario.

Canada to Admit More Polish Vets

OTTAWA, April 10 (CP)—Canada is making arrangements to bring in 1,100 more Polish veterans on farm labor, it was announced Tuesday in a joint statement issued on behalf of Labor Minister Mitchell and Resources Minister Glen.

THE VETERANS, additional to 2,900 poles admitted last autumn, will bring the total for the movement of Polish farm workers into Canada to 4,000, the quota set originally for the admission of Polish veterans. Heavy demands by farm-

To Unload Cargo

GLASGOW, April 10 (Reuters)—Troops will unload Canadian apples, eggs, poultry and flour from the Donaldson Atlantic liner Graciel. It was announced last night. The ship has been tied up since April 2 by a strike of Glasgow dockworkers.

For additional help has resulted in the move. It is expected Canadian officials will leave shortly for England to complete arrangements there for the selection and transfer of the Polish veterans to Canada. The new immigrants will be placed with farmers who have requested their services and are willing to sign an agreement covering their terms of employment.

The Book of Knowledge

(Department: Wonder Questions)

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.

WHAT IS INSIDE THE JUMPING BEAN?

Jumping beans come from Mexico and Central America. It is not the bean that jumps, but a little caterpillar inside.

A tree which grows in swamps has curious three-cornered fruit divided into three parts, like little pods. In two of these pods are small seeds; the third often contains a tiny caterpillar and is what we call the jumping bean.

Before the tree can have its fruit it must, of course, bear flowers. A gray moth visits these flowers, and in part of each deposits an egg. The part which contains the egg grows with the rest of the flower but, instead of becoming a pod for the seed of the tree, it turns into a home for the larva, or caterpillar, which is coming from the egg. Later the flowers lose their petals, and seed pods form and ripen. The husk containing the pods of seed and the little pod with the caterpillar inside drops to the ground and splits into three parts.

The caterpillar eats most of the inside of its house; when it travels it rolls itself up, then lets itself go like a catapult, carrying the house with it, or it rolls over and over. When the time comes for it to spin a cocoon and go to sleep, it does so. But first it cuts a door in the house, fastening it with silken threads. When its sleep is ended, and the caterpillar has turned into a moth, it cuts the threads that hold the door and crawls out of the bean-pod.

What Keeps a Projectile From Falling?

Not only does the shell of a gun not fall to the ground at once when fired, but it always travels in a curve of a certain kind. All things travel along paths of this particular kind when they are thrown in a forward direction.

The path taken is the result of the

working together of all the forces that act on, or in, the shell. If the shell were simply allowed to roll from the mouth of the gun, it would fall at once to the ground, for the only force then acting upon it to any extent would be the steady pull of the earth.

But when the shell is fired, it leaves the gun in a certain direction and with a certain amount of force, and though Newton's law of gravitation says that the earth is pulling the shell, his first law of motion says that every moving thing tends to move on in the same straight line at the same speed forever.

The actual path of the shell is the result of the acting together of several forces. Sooner or later gravitation gets the upper hand, especially as the resistance of the air helps it. But for every moving thing—a shell or an atom of gas in the air, or for anything else—there is a certain speed at which it would leave the earth altogether.

What is an Allergy?

Medicine has not yet determined the exact nature of allergy, but there is little doubt that many ailments are caused by some type of allergy—hay fever, for instance. Some people cannot breathe the pollen from certain plants, others cannot be near cats or horses or dust, without starting to sneeze.

It is also true that certain foods which are wholesome for most people cause others to faint or to show signs of illness. There are some people who are poisoned by raw apples, in spite of the saying, "An apple a day keeps the doctor away."

This strange condition is known as an allergy, and the person is said to be allergic to raw apples, or pollen or cats, as the case may be. Even touching the leaves of particular plants may cause an allergy.

Post Office Clock Soon Ticks Again

For those unfortunate citizens who have been late for work, and appointments recently, due to the fact that they have been taking their time from the post office clock, it will no doubt be helpful to know that officials have hopes of getting "Old Faithful" into running condition again by Wednesday night or Thursday.

The clock has been stopped for the last few days at 25 minutes past ten. Daa McPherson, caretaker at the post-office building, said the clock seems to be just in a general run-down condition and it is believed that nothing serious is wrong.

It will be noticed that all early morning workers heading quickly to work usually gaze at the clock and count the minutes as they hurry toward their employment. Many have no doubt felt a little uneasy during the last week.

British Warplanes Going to Turkey

LONDON, April 10 (Reuters)—The Daily Graphic reported today that "hundreds of British fighter planes are being flown to Turkey."

In a front page story the paper said the planes are part of 500 bought by Turkish government from the ministry of supply.

"DECISION to allow Turkey to purchase the machines is believed to be directly connected with President Truman's proposed loan of \$100,000,000 to Turkey for military needs and essential public projects."

The Graphic said many of these fighters are of types which have been declared obsolete but it quoted a ministry of supply official as saying they were not on the surplus list.

Red Cross Fund At 78% of Goal

TORONTO, April 10 (CP)—National headquarters of the Canadian Red Cross here Tuesday announced that 78 percent, or a total of \$3,888,908 is shown in latest reports as subscribed in the Red Cross National Fund appeal for \$5,000,000.

Bridge

By William E. McKenney

Today's hand was played in the Vanderbilt Cup Tournament, and Lee Hazen a member of the runner-up team, thinks it brings out an interesting point that should be beneficial to many players.

At both tables East overcalled the one-diamond bid with one spade and South passed. Now

♠ 95	♠ 74	♠ AK84
♥ KQ653	♥ 2	♥ K532
♦ K53	♦ 5	♦ 9
♣ Q106	♣ W N E	♣ 8
♣ J8	♣ Dealer	♣ 9
♣ J1074		
♣ A J96		
♠ J78		
♠ J109		
♠ A85		
♠ 10742		

West was confronted with a problem. He had too much strength to pass. Should he bid one no trump?

He does have the opponents' suit stopped but what does the bid of one no trump tell his partner?

As Hazen pointed out, it tells him exactly nothing. West had passed originally and even though his partner made another free bid over two diamonds, I doubt that many players with the West hand could justify a four-spade bid.

Now let us look at the bidding at table No. 2. Over East's bid of one spade West bid two spades. True, he held only three trumps, but generally in a knockout match, players do not make vulnerable contracts on four-card suits. So West felt justified in supporting with three of the suit.

Now East knew that his partner had support for his trump suit, and that he also had strength. Otherwise there would have been a pass at one spade from West. Therefore, with the type of hand that he had, East was justified in going to four spades.

Even with the king of clubs off-side, the contract was made easy.

LIBBY'S BABY FOODS
OFFER EXTRA NOURISHMENT

Laboratory and Clinical Tests Prove Baby Gets More Nourishment from Same Amount of Libby's Baby Food

Baby's immature digestive system faces a brand new problem when doctor says it's time for fruits and vegetables. For these foods are fibrous. Their nourishment is held within cell walls.

To help baby overcome this problem, Libby's have developed an exclusive process called *Homogenization* which opens up the food cells. With digestion extra easy, baby gets more of the good nourishment out of Libby's Foods.

For example, actual feeding tests confirm that Libby's Spinach offers baby TWICE as much nourishment as the same spinach that is only strained.

FREE BOOKLET on Infant Feeding

Libby's want all mothers to know more about this exclusive Homogenization process which offers so many benefits to baby. Just write to Libby's, Chatham, Ontario, and a copy of the free booklet "Healthful Feeding for Your Baby" will be sent to you.

ONLY Libby's BABY FOODS ARE BOTH STRAINED AND HOMOGENIZED

For the good of your Health you need these Oranges from Sunny California!

Rapid Progress Is Made

Scarcliffe Stock Farm Wins Notable Spring Show Event

Rapid progress was made Wednesday in the judging of the entries at the annual spring show sponsored by the Edmonton Exhibition Association. The auction sale of bred cows and finished cattle, attracted many spectators. Bidding was brisk and more than 500 purchasers thronged the sale ring.

WEDNESDAY NOON the exhibitors were guests of the association at the annual dinner. E. I. Clarke, president, presided.

In the Shorthorn female classes the Scarcliffe Stock Farm, Clive took first place in the class for animals over 30 months with Admira Leila, 30036, the second prize in this class going to K. C. Edger-ton, Hualien with Bonnie Lass 312290.

William Stefura, Chipman, won first place in the over 18 months and up to and including 30 months class with Beavale Primrose, 345-275, the second prize going to William Melnyk, Chipman, with Golden Rose Lassie, 340457.

IN THE CLASS up to 18 months, the first prize was taken by W. L. Robinson, Vermilion, with Admira Leila, 30036, the second prize in this class going to K. C. Edger-ton, Hualien with Bonnie Lass 312290.

In the Hereford female classes the Wainwright exhibitor, Earl Plaxton, took first place with Glen Rose Blanch, 142296 in the over 30 months class. This animal also being named grand champion.

Mr. Plaxton also won the first place in the over 18 months and up to and including 30 months class, with Plaxtonville Molly, 190440, this animal being judged the reserve champion.

The first prize in the up to and including 18 months class was taken by Paul Gabriel, Erskine, with Pardella Blanche Mixer 11th, 210767. He also captured the second and third prizes in this class.

IN THE American Angus female classes Starko and Sons, Chipman took first place in the over 18 months and up to and including 30 months and grand championship with Kallor Queen Lass, 85251, the reserve championship going to Thomas S. Rackman, Lloydminster, with Bignor Ballerina, 61349, first prize winner in the class for animals over 30 months.

In the Hereford bull classes first place in the group of over 30 months went to S. O. Svenson, Ponoka, with Climax Wintercot D 24, 161589, the second place in this class going to F. W. Clarke, St. Luna, with Bashaw Lad 9th, 165099.

In the 18 months and up to and including 30 months class the first prize winner was Milton Real Prince D 7th, 263074, exhibited by Rex Saunders, Lacombe. The second prize in this class was Hawkins Bros, Strone, Northway Mixer 9th, 166794.

FIRST PRIZE winner in the class up to and including 18 months was J. C. Cross, Vermilion, with Danford Domino, 34th, 194-215, the second place being taken by I. Schaefer, Tofield, with Russ Creek Flagg, 200839.

The champion in the class was Rex Saunders, Lacombe, the winner in the yearling class being Milton Real Prince. The Hawkins Bros, Strone, Northway Mixer, took the reserve ribbon.

In the Shorthorn bull classes the winner of the grand championship was C. J. Green, Vermilion, with Killlearn Norseman 11th, 270-976, the reserve ribbon going to Clifford T. Appleby, Tofield, with Thornlodge Promoter, 282254.

In the Aberdeen Angus bull classes the grand championship was taken by Charles, Elbert and Sons, South Edmonton, with Sandy Lake Mickey, 5th, 8124, and the re-

FEARS UNDERWORLD: Madeleine Medos, 23, Vancouver, wife of Harry Medos, 22, charged with the murder of at least one Vancouver policeman, is believed to have taken refuge in hotel room about the underworld vengeance, after threatening to expose underworld officials. Mrs. Medos was later found by Vancouver police but her whereabouts are being kept secret.

Withdraw School Lands From Vets

Announcement that school lands no longer will be made available to veterans, was made on Wednesday by Hon. N. E. Tanner, minister of lands and mines.

THE LANDS had been with-drawn from the school lands endowment, and made available to veterans under agricultural leases. This made land available to returning servicemen in their home districts, they were eligible also for assistance from the federal government, under terms of the Veterans' Land Act.

More than 500 veterans have been allocated lands under this project, but the government had decided to discontinue this practice after March 31, 1947.

"HOWEVER applications, received prior to March 31, 1947, will be given consideration," he added.

The minister also reviewed the circumstances of the government's land clearing scheme in the Wainham area and indicated that 80 or 90 parcels of land in that area should be available to veterans this year.

serve ribbon was awarded to Starko and Sons, Chipman, with Kallor Queen Lass, 85251, 84643.

World Court Gets Albania Dispute

LAKE SUCCESS, N.Y., April 10 (CP)—The International Court of Justice will hear Britain's charges that Albania was responsible for mine damage in Ustica Channel to two British destroyers and the deaths of 44 British sailors. Eight delegates of the 11-member United Nations committee of experts will hear the case in court. Russia and Poland obtained a 12-11 vote in the Security Council, while the British delegate could not vote.

CPR Earnings Down \$3,417,723

OTTAWA, April 10 (CP)—The Canadian Pacific Railway Company's earnings for the first two months of 1947 were down \$3,417,723 in comparison with the same period last year. The drop was due to a 12.30 per cent increase in freight rates in the first two months of 1947.

Happy little lady!

A matched goodie bag from hubby... sweet kisses from the children, off to school after a hearty breakfast.

She smiles at the empty plates, happy in the knowledge that she has pleased and cared for her loved ones, smiles at the memory of the joy which greeted the steaming pancakes and the Crown Brand Corn Syrup on this morning's breakfast table.

You, too, can serve Crown Brand with complete confidence because Crown Brand Corn Syrup has been recommended and used for years, in the bottle feeding of infants and is a favourite with all ages because of its delicious and tempting flavour.

Mutual Respect Is Marital Keynote

When girls and boys get married they are influenced in their choice of a mate by a number of things. Such as each other's looks, how they wear their clothes, how good a line the other carries, if they like the same movies and have the same taste in ice cream sodas. Some times they even give a moment's thought to each other's dispositions and what sort of husbands and wives they are likely to make.

But the one thing that they practically never take into consideration is whether they respect each other. Yet that is the foundation stone of every successful marriage. Beauty fades. Romance is just a dream of youth from which we wake up. Passion dies of satiety unless it rests on something greater than physical attraction. And by the time husbands and wives are middle-aged there is no bond between them unless they respect each other.

The young, who have not learned life's bitter lessons, do not believe this. They think that love is the most important thing in every marriage, and they do not realize that we cannot love long for that which we have a contempt. We may pity the weaklings. We may condone their faults and try to cover them up even from our own eyes. But the affection we give them is merely a cloak for our disdain. In our hearts, as the poet says, "we are ashamed throughout our being to have loved so poor a thing."

We weave a lot of fiction about the beautiful devotion of husbands and wives who still cherish the mates who humiliate them in every way and make their lives a burden to them. But, in reality, it doesn't exist. It is just an act that proud men and women put on to

save their faces. A silly girl, infatuated with a drunkard, may marry him but by the time she has fished him out of the gutter and seen him filthy and repulsive he does not look like a fairy prince to her. Nor does the woman whose husband is too lazy to work and who drags him and her children down to poverty, foster any maidlin emotions about him. She sees him stripped of all disguises as the heel he is. We can only love what is loveable.

AND THE SAME thing holds true of the men who endure wives who nag them and henpeck them, who are shrewd and viragoes, who are lazy slovens who keep houses that are pigsties. In public they act the part of a husband who condones his wife's faults just because they are hers, but privately he loathes her.

There can be no stability in a marriage in which the husband and wife do not respect each other. No woman can be happy with a man who is a liar and a cheat and a philanderer and of whose every act she is suspicious. Nor can any man be happy with a woman who pads bills, who flirts with any man who notices her, who teaches the children to lie and cover up for her and whose word he cannot trust.

But far otherwise is it with the married couples whose respect for each other has grown with the years. The glamor of youth has gone from them, but in its stead has come the sure knowledge that they can trust in each other as they can in God. They have seen each other tried in the furnace and they have come out pure gold.

It would save a lot of heartache and prevent many a divorce if youngsters would change the litany of courtship from "Do you love me?" to "Do you respect me?"

Your Baby and Mine

By Myrtle Meyer Eldred

Left-handedness is an inborn tendency. It is not developed because the child has been allowed to use one hand indiscriminately because all children do this for a time. Eventually, the right-handed child is no longer ambidextrous and the left-handed one begins to change anything placed in his right hand over to the left.

Nature has set down the pattern of nerve messages from brain to hand. If the child is right-handed the messages spring from the left side of the brain, for the left-handed child from the right side. What happens when the right hand takes over the messages sent to the left hand is that there is a slowing up of manual skill and some handicap to the child's speech.

A child who is left-handed and allowed to be so, is just as deft as a right-handed child. But, he suffers an enormous handicap to his skills when he is forced to change and use the right hand. Parents

should recognize that a child's liking to form and be like other children is incentive enough to cause him to be right-handed unless he knows this to be a serious personal handicap to him.

There was a time when teachers felt it incumbent upon them to teach the child to use the right hand for writing and cutting. Not too long ago if I had written an article such as this I would be immediately set right by parents who had tied up their child to use the right one. Their attitude was that left-handedness was akin to a criminal act which must be routed out at any cost to the child.

Luckily, the emphasis has been so heavy upon parents and teachers not to upset the child's natural handedness that these practices are no longer in vogue. The persistent drip of advice has finally worn away the stone of prejudice.

The largest percentage of persons are right-handed, but if the child, given the same opportunities to use the right hand as come to all children, still persists in changing to the left, allow him that privilege. His script will be as clear, his skills as marked, as if he used his right hand.

Our leaflet No. 43 on "The Stammering Child," may be had by sending a stamped, self-addressed envelope to Myrtle Meyer Eldred in care of the Edmonton Bulletin.

Veteran Pair Wed 60 Years

VETERAN, April 9 M. and Mrs. Richard Lewis celebrated their diamond wedding anniversary on April 4. They were married at Bilton, Hargreave, Yorkshire, England, in 1887 and took up a homestead in the Nose Hills District where they still reside. They are both 85 years of age and enjoy comparatively good health. Both are fond of music and Mr. Lewis always an organist, devotes a portion of his time daily to playing his organ. Both are fond

Why Grow Old?

By Josephine Lowman

This letter has recently come to "Why Grow Old?"

"Dear Josephine Lowman I have got friends who are always insinuating that I am fat. I have two children and they have none. They are just about my age and height but weigh much less than I do. I weigh 132 pounds and am 5 feet, 6 inches tall. Personally, I had just as soon have a little weight as look like a bean pole. My bust is 36 inches, waist 28 inches and hips 37 inches. Am I fat? What is wrong with my figure?"

Kitty! Kitty! They are probably jealous of your curves and wish they had some. Judging from your statistics, your friends are terribly underweight and you are certainly NOT overweight. Do not try to lose pounds. Your measurements are good. If you want to make them wild with envy, take an inch off

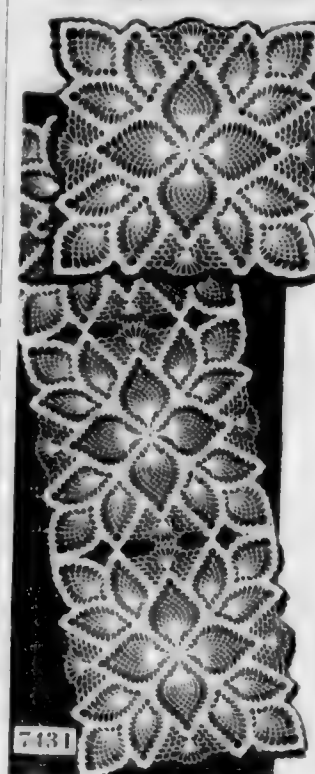

your hip measurement through exercise. I have often noticed that women unconsciously fall heir to this kind of self-defense. If they are fat they are likely to feel that their friend, who has just lost 20 pounds, looks old in the face, when often just the opposite is true and the friend actually looks years younger! If they are underweight they try to feel that they like themselves just as they are!

It is a good thing for feminine glamor that most women face their defects and try to do something about them. Otherwise there would not be so many attractive women in the world. The method of thought the friends are using is certainly self-deceiving but doesn't fool anybody else.

A few pounds added or taken away, a new kind of hair styling or make-up or a little more knowledge of posture and clothes can make all the difference in the world in the way a woman looks, and when she turns her back on available present day information about such things, it seems too bad!

If you wish to have my suggestions about make-up, send a stamped, self-addressed envelope with your request for leaflet No. 30 "What's Going On?" to Josephine Lowman in care of The Edmonton Bulletin.

WAX, Old English No Rub Tin 54c

Feel Stuffed and Upset After Enjoying a Meal?

If you suffer from dyspepsia, sour stomach, biliousness, headaches, minor liver or kidney complaints—use Burdock Blood Bitters. This is a popular preparation that will help tone up the stomach, kidney and liver, aid digestion and bring quick relief from indigestion and constipation. Safe, effective and dependable, B.B.B. contains no harmful ingredients nor habit forming drugs. You'll be agreeably surprised how quickly B.B.B. aids digestion, assimilation, elimination, and how much better you feel. Ask for it by name—Burdock Blood Bitters—on sale at drug counters everywhere.

The T. Milburn Co., Limited, Toronto, Ont.

BOYS! GIRLS!

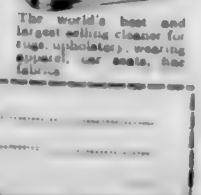

Win a smart NEW 1947 BICYCLE

FREE CONTEST

An equal chance for any boy or girl to WIN!

It's Easy!
It's Exciting!
It's Fun!

Here's All You Have To Do...

Three wonderful new "Mystic" products are shown on the right. On each is printed the name of the manufacturer. To enter this contest: 1. Write, print or trace from the label on the tin the correct name of this manufacturer. 2. All three "Mystic" products are in time that are lithographed in the same color scheme. Tell us what these colors are.

It's easy... it's exciting... it's fun to win a brand new 1947 model bicycle so simply. This contest gives every boy and girl an equal chance to win.

Your entry will be judged on the basis of correctness and skill. SO HURRY! Get your entry in by the very next mail. Think what a heap of fun it will be to own a bike of your own. And the bicycles we are giving away are beauties.

MAIL YOUR ENTRY TODAY!

MAIL THIS ENTRY to Box 100, AGINCOURT, ONT.

New Skin Tightener does Wonders!

Surprise! Delight! Awaken your face with NEW SANOILITE ASTRINGENT CREAM! It not only gives your skin a smooth, clear, and healthy appearance but it also tends to close up premature fine lines and wrinkles, subduing their prominence. The effect of this skin surface tightening is true. It gives your skin a smooth, clear, and healthy appearance but it also tends to close up premature fine lines and wrinkles, subduing their prominence.

Sanoilite Astringent Cream Sold at Cosmetic Counters Everywhere

One of the Most Effective BLOOD-IRON TONICS YOU CAN BUY

If your blood lacks iron! You rule and women who suffer from simple anemia that you are a "weak" "dragged out" type may be due to lack of iron in the blood. Buy Lydia E. Pinkham's Compound which is one of the best known ways to help build up red blood cells. Each box contains 10 tablets and is sold at the lowest price. (See the back of the box for full directions.)

LYDIA E. PINKHAM'S COMPOUND TABLETS (with added iron)

When in Edmonton Shop at The ARMY & NAVY Drug Store Ltd.

SHIRRIFF'S MARMALADE

Ashes And Fumes Pour From Mount Hekla

Huge clouds of smoke, fumes and ashes rise from Mount Hekla near Reykjavik, Iceland. The peak, erupting for the first time since 1845, has spread thousands of tons of lava, rocks and ashes over a wide area, making a coastal navigation difficult, damaging grazing lands and polluting drinking water.

Strange Story From Africa Tells of Manna Descending

WASHINGTON, (NANA) — A strange story has just come out of the jungles of Africa. It is one which people with faith will believe, while those of little faith will seek a scientific answer. It is a story which repeats today a tale many centuries old.

This is the older report: "Then said the Lord unto Moses, Behold I will rain bread from heaven for you, and the people shall go out and gather a certain portion every day that I may prove them whether they will walk in my law or not."

"And when the dew that lay was gone, behold, upon the face of the wilderness there lay a small round thing, as small as the hoar frost on the ground. And when the children of Israel saw it they said one to another, 'It is Manna,' for they knew not what it was."

"And Moses said unto them, 'This is the bread which the Lord has given you to eat.'

In March 1939, about 400 members of the Beles tribe of central Angola, West Africa, were on the verge of starvation. The rain failed and the crops did not grow. Their corn was gone, and the grasshoppers the tribe ate had disappeared.

Twenty years earlier, a Christian mission had been established among the tribe, and soon its members

formed a Christian Community, led by Carlos Sequeque.

Called For Prayers Carlos was away from home in 1939 at the time of the famine. His wife that 19th day of March called the people together for prayer. She read them passages in the Bible recounting how the Lord had sent manna to his people in the time of Moses.

What then happened, Sequeque himself reported in a letter to Mrs. W. H. Carpenter, wife of the missionary who had befriended him as a small boy. A literal translation of the letter was made by the Rev. E. L. Cardy, an evangelist living at Cape Town, South Africa. Mr. Cardy was in Washington for a visit and brought details of the story.

The letter by Sequeque said: "Also the manna came thus: God chose a little girl that was born on the 13 of March 1934—that is, the girl was five years old."

"This girl did this wise. On the 19th of March she wandered away out into the woods, and there found the manna scattered around on the ground. Then the girl began to eat, and when she became filled she returned home to get a plate. She filled the plate and was eating from it in the midst of older people, and the older folks asked her what she was eating."

"She told them that she was eating manna, which she said was eaten by our fathers, Moses and Didquidiqui (Aaron), there in the desert."

Saw Six Persons

"Moreover, the girl described six strange persons she saw out there. Then the older people followed on. They found the manna on the ground; it was scattered on the ground and on the leaves of the trees. The people of Namba village called the others and then showed their faith and belief and joy. The men, women and little children all ate and each filled a plate of it."

"When I returned from Bongo I found that a boy had saved a little of it for me. I ate part and divided the rest into three parts, one for my mother (meaning Mrs. Carpenter), one for Pastor Curtis at Nova Lisboa and what remained I kept to use it in working here in our land of Angola. Now to prove my certainty of it I have sent a sample of manna, which fell on our village of Namba, to you my mother."

Mr. Cardy explained the little girl was the child of the Sequeques. There were no trees near the place where the manna fell, he said, stating the "woods" referred to in the letter were what we would call "sage brush."

The Cape Town evangelist had several samples of manna in a glass bottle. It has a sweetness like honey and melts easily on the tongue, he explained. He had a few pieces left of the supply he had brought to this country, the remainder having been eaten here. Mr. Cardy lived in Takoma Park, Md., from 1928 to 1930 as a member of the Seventh Day Adventist organization. At present, Mr. Cardy is head of the voice of Prophecy Bible school, Cape Town, where he has lived since 1939.

Ends 69 Years As Civil Servant

TORONTO, (CP) — Governments may come and go but Charles Alfred Fitch, consultant in the Ontario government criminal justice department, seems to go on forever. On April 1, he began his 70th year as a civil servant.

Now 62, he has served under 14 premiers and 17 attorneys-general, a record believed unequalled in Canada. And, having no desire to leave, he's going to carry on. "My work is an extremely important part of my life," he confesses. The blight of structure and mild of manner he launched his career with the government as a boy of 13. "Ah, how well I remember that first day. The 'precious' telephone, the only one in the office, was locked in the vault and one person was designated as attendant. The rest of us were afraid to touch it."

As for the typewriter, it was still on probation. It had to prove its worth and instructions were issued that it was not to be used for documents for fear the writing would fade. When Charlie Fitch was a green office boy there were only two women on the staff and he said some officials looked on them with disfavor. "Now, there are hundreds of women."

While the stress of years has compelled him to forego his former pursuits of fishing, hunting and bowling, Charlie Fitch is still a keen movie fan and a motorist, and a civil servant!

IT'S A FUN, SON

"Hello old man, I haven't seen you for some time."

"I've been in bed for seven weeks."

"That's too bad. Fiu, I suppose?"

"Yes, and crashed."

EATON'S DAILY STORE NEWS

STORE HOURS: 9:30 a.m. to 5:30 p.m., Daily except Wednesday 9:30 a.m. to 12:30 p.m. To Call EATON'S Dial 9-1-2

NOW in NYLON!

EATON'S Own Brands of Full Fashioned Hosiery

TECO *Eatonia* GLENEATON

(FORMERLY BRAEMORE) (FORMERLY MAYFAIR)

In pre-nylon days, EATON'S Own Brands of silk stockings were such a favorite with shoppers that 4 out of 5 of our customers bought them REGULARLY. Actually, EATON'S Own Brands outsold by 4 to 1 all other brands of stockings we carried.

The reasons were simple:

1. EATON'S Own Brands offered money-saving prices.
2. They offered an excellent choice in weights and colors.
3. It was our aim to have this selection available day in and day out—always on hand when you needed them.

Now, EATON'S Own Brands of NYLON Stockings offer the same worthwhile advantages. Note the LOWER prices—note the choice of weights, the range of colors. Ask for these three EATON brands when you buy NYLON stockings—more evidence that IT PAYS TO SHOP AT EATON'S.

TECO *Eatonia* GLENEATON

CLEAR CLOGGED DRAINS

new, faster way!

Gillett's Drain Cleaner clears drains clogged that even water can't force through. Easy to use—costs less—acts faster. Use it at first signs of slow-up. Buy a tin from your grocer today—save money and worry.

Prevents and clears clogged drains.

"Coming, Mother!"

"You don't have to call twice! I saw you makin' those keen rennet-custard deserts this mornin'—an' do I love 'em!"

Babies—children—grown-ups... the whole family enjoys milk that's made into delicious rennet-custards. They have all milk's food value because they aren't cooked, and the rennet enzyme makes them even easier to digest than milk itself. They're so quick and easy to make—give your youngsters and yourself a treat by serving rennet-custards today!

Make rennet-custards with either "Junket" Brand Rennet Tablets—not sweetened or flavored—add sugar and flavor to taste; or "Junket" Rennet Powder—already sweetened, in six delicious flavors. Both at all grocers. For free sample of "Junket" Rennet Tablets, write "Junket" Brand Foods, Division of Chr. Hansen's Laboratory, Dept. N-5, Toronto, Can.

WORTH WAITING FOR!
"JUNKET" Freezing Mix and BRAND Quick Fudge Mix.

"JUNKET" is the trade-mark of Chr. Hansen's Laboratory, Inc., for its rennet and other food products, and is registered in Canada and U.S.
